

No 484 Read the following endorsement of the Chief Engineer for Irrigation,
dated Ootacamund, 8th October 1875, No 1,185 —

From Major J BEATTY, R E, Acting Superintending Engineer, Godavery District,
to Lieutenant-Colonel J MULLINS, R E, Chief Engineer and Joint
Secretary to Government, Public Works Department, dated Dowlaishweram,
27th September 1875, No 1,965

I HAVE the honor to forward herewith, for your sanction from the Budget
provision for Survey Establishments, an
1 Estimate estimate, amounting to Rupees 400, for
1 Memorandum
1 Do of the progress of work up to investigating the drainage of the villages
end of August 1875 in the Vadurupaka sub-section of the

Eastern Delta, together with a memorandum showing the sanctions for Survey
Establishments up to date, and balances remaining on the 31st August 1875.

2 I take the opportunity of requesting you will obtain the sanction of Govern-
ment to my stopping the out-door work of these surveys on the completion of those
now in hand* until such time as an

* Including the Vadurupaka sub-section officer can be appointed for special charge
of this work, or until the officer in charge of the range can find time to complete
the estimates and reports for the sub-sections that have been surveyed.

3 Under G O, No 560, of 26th February 1875, Lieutenant Langley, R E,
was transferred from the drainage surveys to charge of a sub-division of the Western
Delta Since that time the drainage survey work has been carried on under the
Executive Engineer of the Eastern Delta, Captain Brockman, and the Surveyors are
now working on instructions he left with them

4 But, owing to the reduced state of the Range Establishment and the pressure
of more emergent work, the Range Officer has not yet been able to submit estimates
and reports on any sub-sections, and I fear that it may be a considerable time
before he can do so He is at present on privilege leave which I considered it my
duty to grant him, as he had been in almost continuous employment for several years
without such leave, and the ordinary duties of that important range are with difficulty
now carried on by one young Assistant and two Supervisors

SUBMITTED for the consideration of Government

The estimate for surveying the Vadurupaka sub-section has been sanctioned

2 Under the circumstances stated by the Superintending Engineer, the post-
ponement of further out-door work appears to be desirable, it having been found
impracticable to prepare the estimates for sub-sections of which the surveys and levels
have been completed

(Signed) JOHN MULLINS, Lt.-Col, R E,
Chief Engineer for Irrigation.

ORDER THEREON, 28th October 1875, No 3,061

Establishment.

Godavery until the services of another officer can be made available for these investigations

(True Extract)

The estimate for surveying the Vadurupakka sub section has been sanctioned.

2^d Under the circumstances stated by the Superintendence the postponement of further out door work appears to be desirable, it having been found impracticable to prepare the estimates for subsections of which the surveys and levels have been completed.
