THE DISTRICT ENGINEER OF

Chingleput District

SIR,

With reference to G. Oct. 27 97 of the
29th Ultimo I have the honor to request that
you will submit this letter for the consideration
of Government

In the year 1859 Government decided on establishing a class for officers at the Civil Engineering College Madras, an entrance examination had to be passed, and a monthly fee of Rs 15 was demanded from each student. At my personal expense I joined the class in 1864 & in my requirement which was obtained at Jubilee Hall, I passed the final examination in May 1865 and my services were applied for by His Excellency (Sir W Denison) the Governor in Council but owing to my not having passed in

Ref 25 May 16-10-75

the Vernaculars I was not allowed to leave
my Regiment; in the month of May 1866
I was gazetted as Acting Assistant Engineer
of the 2nd Grade and at the same time I
was offered a regimental appointment
(Quarter Master of the 41st M. I.) by
Colonel Luker, a few months later I
could have obtained the Adjutancy of
the same Corps. I was for years in this
Department in receipt of less pay than I
would have drawn as adjutant of a
Regiment, I served for upwards of 6 years
in the notoriously unhealthy District of
Hurnool and while there I would willingly
have returned to my regiment but was
not allowed to, I found very great diffi-
culty in even getting transferred to another
District, I believe on Dr. Wilson's recommenda-
-tion I was removed last year to a tolerably
healthy Range, and I now find that I am
to be relegated to the Military Department
It is only very lately that I have been draw-
-ing a better rate of salary than I would
have done had I been on the staff of a
regiment, and after having gone to much

71
personal expense in educating myself
having suffered all the inconveniences
of Departmental life I feel it a great
hardship that I should now be expected
to suffer the pecuniary loss which a removal
to a regiment would involve for a decade
and more having elapsed since I did duty,
with a native Corps it is not likely that
any Commanding Officer would dream of
giving me an appointment and for years
to come I could not expect anything more
than my bare Captain's pay it would be
unjudicious to send me to Bannah or any
other unhealthy place for I am far from well
and was moved here not a year ago purely
on account of bad health, I would have
taken furlough to Europe last May, but
owing to the heavy arrears of work (in the
interests of Government) I gave up the
idea, were I to fall sick after I joined
a Regiment. My furlough pay would
probably be £180 a year less than it
would be were I granted leave now. I
would also point out that it is not very

encouraging to men like myself who do
their best to mature and perfect their
knowledge of professional subjects to
find that they have labored in vain and
I would therefore earnestly solicit that
His Excellency the Commander-in-Chief
be moved to make an exception in my
favor or if my services can not be
permanently spared I crave to be allowed
to hold my present appointment for
another year by which time probably
I shall have sufficiently recruited my
health.

I have the honor to be
Sir,

Yours most obedt Servt
