8th November 1875.*

Read the following —

No. 191.

MEMORANDUM.

No 1,216.

In Proceedings, Madras Government, No 2,757, of the 23rd September 1875, were given the sanctions [for Survey Establishments, and the amount then known to be required for the investigations on which the establishments are employed during the current year, the total being Rupees 23,749 against a grant of Rupees 25,000 Since then the following sanctions have been given or recommended to be given, and the necessity for supplementing the grant has become evident Probably an additional grant of Rupees 5,000 will suffice, and as a large part of the work to be done is in connection with the repair and maintenance of irrigation works, on which account the sanctions shown in the Proceedings quoted amount to Rupees 9,647, it is suggested that Rupees 5,000 be made available by transfer from the Agricultural Repair Grant, it being essential that in numerous cases surveys and levels should precede the preparation of estimates for the repair of existing irrigation works

Chingleput — Rupees 90 for surveys in connection with the Madras Water Works Project.

No 1216

In Proceedings made in Government No. 2757 of the 23 September 1875 were given the sanctions for Survey Establishments and the Amount then sanctioned for the investigations in which the establishments are employed during the current year, the total being Rupees 23,749 and a grant of Rupees 25,000 - Since then the following variations have been given or recommended to be given, and the necessity for supplementing the grant has become evident. Probably an additional grant of Rupees 5,000 will suffice, and as a large part of the work to be done is in connection with the repair and maintenance of irrigation works, and in view of the account the sanctions shown in the Proceedings quoted amount to Rupees 9647, it is suggested that Rupees 5,000 be made available by transfer from the Agricultural repair grant, it being essential that in numerous cases surveys and levels should precede the preparation of estimates for the repair of existing

existing irrigation works.

I still think
Al Muller's original
proposal for the
transfer will save a
good deal of time
which is some thing
saved — but I have
no wish to mislead
it. RM
