*Proceedings of the Madras Government, Military Department,
4th November 1875.*

Barracks and Buildings.

Read the following papers:—

No 83 Memorandum from Brigadier-General A. HOWLETT, c b., Quartermaster-General, to Colonel A. C. SILVER, Secretary to Government, Military Department; dated Fort Saint George, 2nd November 1875, No. 6742.

Forwarded, by desire of His Excellency the Commander-in-Chief, with a request that Dr Massy's proposal for the improvement of the ventilation of the barrack now under construction at Wellington, may receive due consideration in the Public Works Department.

From Major General C. ELMHIRST, Commanding Mysore Division, to Brigadier-General A. HOWLETT, c b., Quartermaster-General, Fort Saint George, dated Bangalore, 25th October 1875, No. 383

I have the honor to forward, for the consideration of His Excellency the Commander-in-Chief, copy of letter, No. 1242, of 20th instant, from the Deputy Surgeon-General, British Medical Service, on the subject of certain alterations recommended by him to improve the ventilation in the new barrack in course of construction at Wellington.

From Deputy Surgeon-General H. H. MASSY, Deputy Surgeon-General, British Medical Service, Mysore Circle, to Major W. R. MESHAM, Assistant Quartermaster-General, Mysore Division; dated Bangalore, 20th October 1875, No. 1242

I have the honor to bring to the notice of the Major-General Commanding, that, on my recent visit to Wellington, I observed that the new barrack block, now in course of erection, is being constructed on the same plan as the existing ones.

2 The ventilation in the lower storeys of all is defective. The upper storeys of three blocks, I think, have swing windows near eaves. I would strongly recommend that swing windows be placed in both storeys of the block now being built, similar to those in the upper storeys of some of them.

3 The ventilation in the lower storey of this block will be thereby greatly improved, and I don't think any derangement of the elevation will result. I beg to add that I pointed this out when I was at Wellington to Major-General Walker, R. E., Secretary to Government, Public Works Department.

No. 84 ORDER THEREON, 4th November 1875, No. 5328.
Communicated to the Public Works Department.
