Proceedings of the Madras Government, Public Works Department,
13th November 1875.

Read the following —

No. 335. From the Superintending Engineer, Chingleput, dated 23rd October 1875,
No. 3,106.

No. 336. ORDER THEREON, 13th November 1875, No. 3,258.

IRRIGATION, No. 41.

Account.

UNDER the circumstances represented in the correspondence submitted, Rs. 342 are sanctioned for the Peroonjoly Tank in the Chingleput District in addition to the 1,000 Rupees passed in G O, No 2,918, of the 13th October 1874. It has not been explained why application for this supplemental sanction was not long since made
(True Extract)

Major-General, R.E.,
Secretary to Government

To the Superintending Engineer, Chingleput
" Chief Engineer for Irrigation
" Controller of Public Works Accounts.

12533 Sub Divisional Office
Karagooly 14th August 1875.

To
W. Donaghue Esqre
Sub Engineer D.P.W.
In Charge of No. 3 Range.

Sir,

I have respectfully to address you
on the subject of the Rupees 342 that was
struck off by the Chief Engineer out of
Paroocholy Tank Estimate sanctioned in
G. O. No. 2918 dated 13th October 1874 and
to request the favor of your asking for this
sum to enable me paying for a quantity
of additional earthwork entailed by what
was first thrown up in July and August
in filling erosions being washed into the
tank by October's flood; effecting a reduc-
tion in the rate allowed in the estimate
for earthwork was not practicable the
— 1-6 was entered for an average lead
of 60 yards; the 30 yards expressed in the
estimate, I regret to say, was a clerical
error, 1 amsa is the rate in this talook for
earth dug up at the foot and carried

2 Cte returned
to Mr. Esq
30/10/75

to a bank 3 yards high; every additional 10 yards in length and 1 yard in rise increase it respectively by a pie the average length of the lead in this instance was 75 yards - the furthest being 150 yards, there was water inside and a swamp behind and we were in consequence prevented from taking earth near the breach.

The ground here in the wet season is so saturated that one cannot get down lower than 12 or 15 inches without wetting with water and last year was more than usual a wet one.

Work in this case as in that of most of the breached tanks in the Sub Division was proceeded with in anticipation of the Estimate being sanctioned. the permission I solicited for carrying out emergent repairs to save the revenue of the year was not forthcoming, I had consequently no alternative left but

5 d
to arrange with the heads of Villages and Contractors to go on with these repairs. Orders in December authorizing the filling of breaches enabled me to reimburse the parties who had undertaken it before hand.

I beg to

/Signed/ J. W. Laskey

Superintendent in Ch of Sub Div
No. 3 Range.

/True Copy/

J. H. S. S.

Colonel R. B.

Superintending Engineer

Chingleput

NO. 3106

CHINGLEPUT SUPERINTENDING ENGINEER'S OFFICE,

GUINDY, 23rd October 1875

From

THE SUPERINTENDING ENGINEER,

Chingleput

To

The Chief Engineer
for Irrigation

Enc:
Copy of letter

No 553 of 14 August

to the Sub Engineer
in charge No 3 Range.

I have the honor to forward copy
of a letter from the Sub Divisional
officer of No 3 Range and to request
that the balance Rupees 342 of the
estimate for the repairs of Perovody
Tank may be sanctioned.

L. G. O. No 2918 of 15th October
reduced it to Rupees 1000.

I have the honor to be,

Sir,

Your most obedient Servant

J. G. O.

Colonel, R E

Superintending Engineer, Chingleput.
