Proceedings of the Madras Government, Public Works Department, 30th November 1875.

No. 622. Read the following endorsement of the Consulting Engineer for Railways, dated Madras, 27th November 1875, No. 642 :—

From R. B. ELWIN, Esq., Agent and Manager of the Madras Railway Company, to Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, dated Madras, 25th November 1875, No. 1,182.

With reference to the last paragraph of your letter, No. 1,231, of the 10th instant, I have the honor to state that I learn from the Chief Engineer that he has every hope that the Cheyaur bridge will be completed in less then two years, but as there is an element of uncertainty in connection with the receipt of the additional cylinders indented for from England, he thought it more prudent to put down what may be looked upon as a perfectly safe date.

Submitted for the information of Government with reference to their Order, dated 6th November 1875, No. 3,162.

2. Indents for extra lengths of cylinders required in consequence of the additional headway of 3 feet, and for the girders for four additional openings, were sanctioned by this office on the 2nd September 1875. As the whole of this material can be put in position within a short time after its receipt, it is hoped that the bridge will be ready for traffic early in 1877.

(Signed) W. H. COAKER, Captain, R.E.,
for *Consulting Engineer for Railways.*

No. 623. Order thereon, 30th November 1875, No. 3,395.
