Read the following papers:—

No. 627. From Captain R. F. MORRIS, R.E., District Engineer, Trichinopoly, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Trichinopoly, 8th October 1875, No. 582.

In the list of works prepared by the Garrison Committee lately assembled at this station for the purpose of investigating the wants of every corps and department under the provision of G.O.C.C. of 9th May 1865, was included "re-roofing the European Detail Hospital" at an approximate cost of Rupees 5,400, I now have the honor to bring to your notice the necessity for including this item in the budget for 1876-77. The roof is very old, and I consider that it would be unsafe to leave it in its present condition for another year.

2. The estimate is under preparation and will be forwarded in due course.

THE work in question being looked on as so emergent will be undertaken at once, and a grant of Rupees 2,500 made from the Repair Funds at the disposal of the Chief Engineer to be supplemented hereafter if more can be utilized in the current official year. But the District Engineer should take pains to ensure that the work now to be done shall be lasting and not require entire renewal in future. It should in fact be reported how it happens that such total renovation is now necessary, a history of the existing work being given in detail.
