Dated	8 - 2	C825 -195-

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
8th February 1875.*

No. 194. Read the following letter from Lieutenant-Colonel J. GODDARD, R E, District Engineer, Presidency, to Colonel G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Fort St. George, 21st December 1874, No. 5,279:—

In reference to the concluding remark of G. O., No. 3,563, dated 18th instant, I have the honor to report that the services of an experienced blacksmith are constantly required, not so much at the wells as on a roving commission, to attend here and there, and tinker taps, fittings, and such like, as the emergency of the moment requires.

No. 195. ORDER THEREON, 8th February 1875, No. 353.

ESTABLISHMENT, No 16

It is not quite apparent why either the services of a blacksmith or of cock-turners should be required when the water service will have been discontinued. It appears to His Excellency the Governor in Council that the conservancy of the pipes, etc, connected with the Seven Wells, outside their precincts, should devolve on the Municipality, whose water-supply is adopted.

(True Extract.)

Colonel, R.E.,
Secretary to Government.
