Specification to accompany
Plan & Estimate for stoppage of the encroach-
ments of the Ravines on the Rifle
Range at Bangalore.

Amount of Estimate Rs. 2000—

The Estimate provides for sloping
the sides of the Ravines to prevent their
extension, and for building rough
stone water-falls along the beds of
the Ravines. The earth obtained
by sloping the sides will be thrown
into the bottom of the Ravines between
the stone dams to reduce their depth
and to prevent further scouring.
The drainage will be checked at top
by a small earth bank and channel
along both edges of the Ravines and
let into the Ravines by rough stone
drains at convenient distances apart.
Grass will be sown on sides of slopes
of Ravines, and the earth bank at
top will be turfed.
