12 Report to accompany Plan Estimate
Specification for constructing a new
Coach House & Stable for Subd-
Officer's Quarters Poyichetty

The old Coach House & Stable having
been originally built of rough stone in
much in a most temporary manner
have both been built down. It is
considered that before full rent can
be charged for the Bungalow a new
Coach House & Stable together with
certain repairs to the Bungalow are
necessary. The Building after being
repaired and these out houses erected
may be expected to rent for Rupees
ten per mensem.

Formulations

Wall
Superstructure

Pointing

Roof

The couples will be of common Jang & wood
spars of not less scantling than $2\frac{1}{2}" \times 4"$
well lard together with a collar brace
same scantling as above $\frac{7}{8}$ feet long &
six-inch nails to be used at ridge and
1 at each end of collar. Piers will be
of Bamboo 6" apart well nailed to couple
of not less than $1\frac{1}{4}"$ diameter. Roof
covering will be flat tiles $14\frac{1}{2}"$ overlap with
Chium borders 6' from centre to centre

over the whole roof a border will run
along Eaves with a double breadth at
ridge. These borders will be 6" x 2 1/2"
A beam 9 x 8" cut 9' long will cross
entrance to stable & on which two
couplers will rest.

The couplers will be tied to wall plates.
The floor will be composed of 3" Jelly
and 6" gravel, Jelly to be well rammed
afterward two layers of gravel will
be put on (3" thick each layer) well
watered and rammed.

And every thing
shall be done so under the Building
good, substantial and complete
to the satisfaction of the District
Engineer or the person deputized by
him to inspect it who may condemn
the whole or any part thereof.

2 I hereby Submit an Estimate amounting
P. J. O.

No 1566.

Bundabadi District
Engineer's Office
Dated 15th October 1875

From
The District Engineer
Bundabadi
To
The Chief Engineer
Public Works Department
Fort Saint George

I have the honor to state that on 20th May last I forwarded an Estimate amounting to Rs 136 for repairing the Overcure Bungalow at Payacholi to the President Local Sanitary Board as the building was formerly kept up from Road Maintenance grants. That Officer returned the same stating that the Madanapully Fire Board were not prepared to take over this and other buildings situated on the several lines of Roads. As the repairs were necessary I sanctioned the Estimate pending provision of funds later in the year and directed the Sub Divisional Officer who is occupying the Bungalow to pay a monthly rent of Rs 10. On my late inspection as I found that the Coach House and stable had fallen down I called for an Estimate for repairing the same and reduced the rent to Rs 7 1/2 until they were put in order.

2 I beg to submit an Estimate amounting

Specification to
accompany plans
and Estimate for
erecting a new Coach
House & Stable for
Sub Divisional Officer
Quarters at Payacholi
15/10/75

Enc 4

to \$240 for repairing the Coach House
and stables and request instructions as
to whether I can carry out the repairs -
pending provision of funds later in the
year or wait until such time as funds
are allotted.

3. When Dr. Schenck was the Sub Divisional
Officer he executed the repairs out of his
own pocket and was charged no rent
but I think it advisable to keep this
Building up as a Government Building.

I have the honor to be
Yours to Old & Servant

W. H. H. Col. R. E.

A perspective drawing of a classical building facade. The structure features a prominent pediment supported by a series of columns. The columns are arranged in a row, with some showing decorative capitals. The facade is composed of rectangular panels, and the overall style is reminiscent of classical architectural illustrations.

Sir

With reference to your
 memorandum No. 597 of 27 October
 last I have the honor to forward
 a Plan No. 4 of the building in
 question and to quote below an
 extract from the Sub-Divisional
 Officer's report.

The walls of the Bungalow
 are entirely of mud, plastered over
 with mud. The roof is composed
 of jungle wood spars covered
 with thatch. The walls of out
 Houses are also mud, covered
 with a coupled roof and tiled.

The buildings are all in very
 good order and it is considered
 that no repairs will be required
 of any consequence for the next 10 or
 15 years.
