TO

THE SECRETARY TO THE GOVERNMENT OF INDIA,

Public Works Department, (Irrigation Branch.)

IRRIGATION, No. 28.

Account.

SIR,—I am directed to acknowledge the receipt of your letter No. 395 A.—I., of the 4th instant, and to state in reply that it is unfortunately impracticable to carry out

the wishes of the Government of India by making a re-appropriation of budget credits within the amount of the sanctioned ordinary grant, so as to provide for Survey Establishments from that grant which were originally provided for under Extraordinary.

2. I am instructed to point out that no works are under execution from the ordinary grant, the postponement or further prosecution of which is optional, and to observe that from the correspondence as

To Government of India, dated 17th February 1875, No. 475-A.

From do., dated 21st July 1875, No. 214 A.—I.

To do., „ 14th Oct. 1875, „ 2,932.

per margin, it will be seen that the inadequacy of this grant has been specially brought under the notice of the Government of India. In a separate letter

application has been made to the Government of India for an additional grant under Ordinary to meet the unavoidable expenditure on works not provided for in the Budget, or for which the provision made was disallowed, and which had to be undertaken on emergency, and I am to say that, in the absence of a reserve to meet unforeseen demands, and so long as the Budget grants are confined to works which are more or less emergent, the necessity for applying for supplementary grants will be unavoidable, seeing that in some districts of this Presidency each year the severity of the monsoon rains and of the floods resulting therefrom entail demands which require immediate attention.

I have the honor to be,

Sir,

Your most obedient servant,

Major-General, R.E.,

Secretary to Government.

Fort William, 4. December 1875.

Sir,

I am directed to acknowledge receipt of your docket, No 2458 of the 23rd September last, forwarding copy of the proceedings of the Government of Madras, sanctioning the transfer of the provision in the Madras Irrigation Budget of 1875-76 for Survey Establishments, from "Extraordinary" to "Ordinary."

2. In reply I am to state that the practical result of these proceedings is, that all Survey Charges should be debited to "Ordinary" and this is in accord with the intentions of the Government of India. But I am to add, that the charge must be met, not by an addition to the grant for Ordinary Works

from that for Extraordinary, but by a reappropriation of budget credits within the amount of the sanctioned ordinary grant; and I am to request that this may be done.

Have the honor to be
Sir,
Your most Obedient Servant.
