Read the following papers.—

No. 237D From the District Engineer, Tanjore, dated 19th Aug 1874, No. 704.
No 237E. From do. do „ 14th Nov. „ „ 1,949.
No. 237F From do. do. „ 11th Jan 1875, „ 2,488
No. 237G. Petition from Soondararajooloo Naidoo, „ 24th „ „ 287.

No. 237H. ORDER THEREON, 9th February 1875, No. 373 C.

ESTABLISHMENT, No 20A.

SOONDARARAJOOLOO NAIDOO having failed to obtain a certificate that he is likely to be able to give regular and unbroken attention to his office duties in future, and the Superintending Engineer in charge of Tanjore District having reported that, for the last year that he held the post of Manager of the District Engineer's Office, he did not even attempt to carry out those duties, but was altogether incapable of their performance, His Excellency the Governor in Council is pleased to order that he shall be admitted to pension on production of the necessary Medical Certificate, with effect from the date of the expiration of his sick leave.

(True Extract)

(Signed) G. W. WALKER, Colonel, R E ,

Secretary to Government.

To the Superintending Engineer, Tanjore

Colonel

Superintendent of Indian Affairs
No. 704
From
Direct Colonel R. B. Roberts
Superintendent of Indian Affairs
Colonel R. B. Roberts
Secretary to the Commission
The undersigned acknowledges the receipt of your letter of the 13th August 1874, directing District Inspectors to report when vacancies of Managers may occur in District Inspectors' Offices, and have the honor to state that in my letter No. 382, dated 10th instant, I have reported the temporary vacancy of Manager of this Office, and that Mr. Shute has been appointed by me to fill up the same. There would appear therefore no immediate necessity for carrying out the arrangements suggested by
Colonel

Colonel Forman, R.E., and approved as
a temporary measure by Govern-
ment, the more especially as these
arrangements entail a total depen-
dence on the allowance of Rs. 10 per month
against that of Rs. 20 for the
arrangements now in force.

It is fully right to mention,
moreover, that Mr. Shulley's removal
at the present moment would be
attended with considerable incon-
venience to this Office. It has been
the practice of this District, as of
the late Division, to keep all
correspondence packed in one
instead of in separate papers,
the practice of the late Division
which I have in
recent years held charge. The
consequence of the arrangement
mentioned has been that no matter
in what direction the District
(or Superintending) Engineer or
anyone might travel, he was
compelled to carry with him the
whole correspondence of the
District.

District for the past twelve
months, which he would probably
have to wade through ten or twelve
separate volumes to get at the
correspondence on any one single
subject. And not only this, but work
which could and should be done
at the Head Quarter Office during
the District Engineer's absence on
circuit was considerably retarded,
in consequence of the withdrawal
of the whole of the files from the
Head Quarter Office.

The awkwardness attending
this arrangement was considerably
especially to one coming like myself
a total stranger to the District.
But the system of separate files is
now being introduced under
Mr. Shulley's supervision, and I
trust, therefore, that nothing may
interfere with his removal until
at least the present transition
state of affairs is at an end, or
until

2. The period of 6 months ^{or thereabouts} mentioned, will not expire until the 10th January next, but as I am about to proceed on two months leave, and as I shall not therefore be here on the date mentioned, it appears desirable that before giving over charge, I should represent the circumstances of the case to Government with a view of their being pleased to pass an order thereon.

3. I may mention that from all I hear it is extremely problematical that Scondarajaloo Naidu, the Manager under reference, will at the expiration of his leave be enabled, in consequence of ill health, to resume

Charge

Charge of his duties. But even should his health permit him to do so, it is not advisable in the interests of the service that Mr. Shuter should be removed from his present post, after bringing as he has into working order a large number of Officers in the management of which the greatest confusion prevailed prior to his taking charge.

4. If one of two individuals of the Grade of Manager, is to be thrown out of employ, in consequence of the introduction of the new system, it is clearly not in the interests of Government that the most capable of the two individuals should be the one selected for such temporary deprivation of Office.

It is only right for me to mention.

mentioned here that the late Manager
of this Office has been unable for a
considerable time past, owing to ill
health and other reasons, to conduct
the duties of Manager. For the last
year that he held the post, he did not
even attempt to carry on those duties,
but while drawing pay as Manager
he allowed the Accountants to do the
work, while he himself undertook the
Accountants' duties. The result
as I have already stated, has been
deplorable.

I have the honor therefore
to solicit sanction for my suggestion,
that, in the event of Kondarajiloor
Naikoo being compelled to go for
duty at the expiration of his leave, as
contingency which I do not anticipate, he

he be posted as a temporary measure
to the Bellary District, under the
arrangement proposed by Colonel Ford
in his letter printed with C.O.
13th August 1874, until such time as
the first similar vacancy may take
place in any District Engineer's Office.

I have the honor to be
