No. 71. Read the following letter from R SMITH, Esq, District Engineer, Nellore, to Colonel G W. WALKER, R E, Secretary to Government, Public Works Department, dated Nellore, 12th December 1874, No 88 —

I HAVE the honor to solicit a modification of the Range Office establishment, sanctioned* for the special range in this district, as the amount of work in that range is considerable and cannot be disposed of by one clerk. Hitherto the want was supplied by the office establishment of the vacant sub-divisional charge, but that writer cannot be spared now from his sub-division, as Mr. Supervisor Stephens has joined the district.

* In G. O., No. 770, of 11th March 1873

ESTABLISHMENT, No. 3.

THE Government are unable to accede to the proposals contained in the above letter.

2. Now that the Sub-divisional Officer has joined the Southern Range, the Officer in charge of the East Coast Canal must be relieved of all other work properly belonging to that range in order that he may prosecute his own work more effectually.

3 It is observed that the submission of further proposals for the early extension of the canal has been postponed to an extent certainly not justified by the instructions given in G. O., No 109-A, of 16th January 1874.
