No. 323.

No. 5.

Note by the Chief Engineer for Irrigation.

THE Madras Irrigation and Canal Company's Canal in the 4th Section cut off the water-supply from certain lands under the Nagatore Tank, and remissions have been claimed annually since 1867-68, and up to 1870-71 have been charged to construction Main Canal. In his letter of the 5th August last, No. 93, the Chief Engineer and Manager asks permission to charge the compensation for 1871-72 and 1872-73, amounting to Rupees 242-7-0, to Revenue, under compensations and remissions, and under the present circumstances of the canal this arrangement would appear to be a proper one.

2. It will be seen that Mr. Latham has been asked to state whether means of irrigating the land in question cannot be devised, and on this point he has promised to report.
