

*Proceedings of the Madras Government, Public Works Department,
16th February 1875.*

Read the following papers:—

No. 362. From Captain J. W. HINDLE, Officiating District Engineer, Vizagapatam, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Waltair, 12th January 1875, No. 1,998.

With reference to G. O., No. 2, dated 2nd November 1874, I have the honor to submit herewith an estimate, amounting to Rupees 594, of the temporary Survey Establishment required for the preparation of the cross and longitudinal sections, etc., of the Varahanuddy, and to request you will be good enough to obtain the sanction of Government for the same.

No. 92.

No. 363. *Note by the Chief Engineer for Irrigation.*

THE District Engineer asks for an establishment for six months for surveys and levels in connection with the intended alteration of the Kopaka Mokhassidar's channel, so as to supply that channel from the anicut. It is not clear for what purpose the survey of the river above the anicut is required, the arrangements being virtually dependent upon the level of the crest of the anicut, of the sill of the head sluice of the Puluport channel, and of the lands to be irrigated under the Mokhassidar's channel. However one month will suffice, it is believed, for all the work to be done, and Rupees 100 may be sanctioned for the purpose.

CAMP, ARCONUM,
22nd January 1875.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 364. ORDER THEREON, 16th February 1875, No. 436.

IRRIGATION, No. 21.
Establishment.

An expenditure of Rupees 100 from the provision for temporary establishments is sanctioned for the surveys and levels required in connection with the alteration of arrangements for the supply of the Mokhassidar's channel from the Kopaka Anicut, in the Vizagapatam District. The expenditure under this sanction, and on the estimate when sanctioned, will be chargeable to Capital.
