*Proceedings of the Madras Government, Public Works Department,
16th February 1875.*

No. 372. Read the following Proceedings of the Board of Revenue, dated 13th January 1875, No. 59 :—

Read the following letter from G. D. LEMAN, Esq., Collector of the Kistna District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Masulipatam, 3rd November 1874, No. 1,776.

REFERRING to paragraph 7 of my letter, No. 1,590, dated 21st September 1874, I have the honor to inform you that the Superintending Engineer reports that the bridge at the Kankipad Look was not required, as the line of the village road was altered and taken over the Pullair Head Sluice.

2. The new channel at Pamarru appears to have been carried out separately before the Pullair Project was sanctioned, and therefore the sum allowed for it was not required.

3. In the letter above quoted, the usual information regarding the results of the anicut and other irrigation works was not given, as the necessary particulars had not then been collected. The usual statement, showing the land taken up year by year since the anicut channels were open, is given below :—
