With
I have the honor to state
with reference to letter No. 74 of
Secretary to Government Public Works
Department that I pointed out before
that nearly 100 Rupees had already
been spent on this building by the
Contractor as it was not known at that
time so large a sum would have been
allowed to elapse by the P. W. D. for
last year and this work had already
been sanctioned by Government. It
is difficult and in fact next to
impossible

impossible to get a better site now and
it was only after the experience of the
late heavy floods which have not been
known in the District for the last twenty
years that I thought it was necessary
that extra precautionary measures should
be taken with regard to the raising of
the barrier of the same.
