*Proceedings of the Madras Government, Public Works Department,
26th February 1875.*

Read the following papers —

No 630 From Colonel A. S. MOBERLY, R E, District Engineer, Cuddapah,
to Lieutenant-Colonel J MULLINS, R E, Chief Engineer for Irrigation,
dated Cuddapah, 7th December 1874, No 1,734.

I HAVE the honor to forward, for your approval and sanction, the accompanying estimate, specification, report, sections, and a list amounting to Rupees 975 for repairing the anicut of Tavalum Nayana Calva supply channel in Kadri Taluq, and to inform you that the report and sections will afford you all the information required—*vide* your circulars on the subject.

2 I request that the estimate, with its enclosures, may be returned when the same receive your sanction.

No. 166.

No. 631. *Note by the Chief Engineer for Irrigation.*

THE following estimate has been submitted for sanction by the District Engineer, Cuddapah —

Repairing the Nuggana Anicut		Rupees 975
Ayacut area { Government lands		Acres 51
{ Inam do		2
assessment		Rupees 227
Highest revenue		306
Average ..		245

Date and cost of last repairs, 1864-65, Rupees 270. The anicut is on the Paupugny, and was damaged by the freshes of 1873. There appears to be no option but to repair it, although it is certain that the up-keep of a number of anicuts on this river at short intervals must be expensive, and is probably unnecessary. What is wanted is an examination of the irrigation under this river generally with a view to all the channels being supplied by a moderate number of efficient weirs situated in most favorable localities for the purpose. The investigation will take time, but the subject should receive the District Engineer's attention, and he should make himself thoroughly acquainted with the circumstances, after which the necessary information for dealing with this group of irrigation systematically can be obtained and put on paper.

2 The longitude given in paragraph 1 of the report is incorrect, the meridian of 79-51-30 being nowhere in the Cuddapah District.

FORT St GEORGE, (Signed) A. deC. SCOTT, Major, R E,
8th February 1875. for Chief Engineer for Irrigation

No 632 ORDER THEREON, 26th February 1875, No. 550

IRRIGATION, No. 56

THE following estimate is sanctioned.—

Repairing the Nuggana Anicut Rs. 975

and the attention of the District Engineer, Cuddapah, will be given to the remarks of the Chief Engineer for Irrigation as to the way in which this group of irrigation under the Paupugny should be dealt with

(True Extract.)

Colonel, R E.,
Secretary to Government.
