*Proceedings of the Madras Government, Public Works Department,
6th March 1875.*

No. 171. Read the following letter from Major J. BEATTY, R E, District Engineer, Godavery, to Colonel G W. WALKER, R E, Secretary to Government, Public Works Department, dated Dowlaishweram, 10th February 1875, No. 3,518.—

I HAVE the honor to inform you that, on docking the steamer *Fred and May* for ordinary repairs prior to putting in the new boiler lately received from England, it is found that her bottom, which has been repeatedly patched during the last ten years, is in a much more decayed state than was expected, so that it must now be entirely renewed for the safety of the vessel.

2. The accompanying estimate, amounting to Rupees 7,867, accordingly provides for a new bottom throughout, also for re painting and new decking. It includes also the cost of docking and refitting the engines (which have been taken out in order to make the repairs) and fitting in the new boiler.

3. The steamer *Frank and Ada*, which I understand is now on her voyage down from Calcutta, will take the place of the *Fred and May* for the present at the dredging of the Cocanada river, and the *Fred and May*, when her repairs have been completed, will be available for use on the Coringa river, if it be decided to provide plant for dredging there, or one of these vessels may be transferred to some other port. In the latter case I beg to suggest that the steamer *Frank and Ada* be transferred elsewhere without delay, as this is the most favorable time of the year for taking her down the coast.

4. If funds cannot now be provided, the repairs of the *Fred and May*, if sanctioned, may be proceeded with at once, and paid for after 1st April.

No. 172. ORDER THEREON, 6th March 1875, No. 646.

ACCOUNT, No 17.

THE estimate of Rupees 7,800 for thoroughly repairing the steamer *Fred and May* and putting in her new boiler

is sanctioned, and will be carried out at once in anticipation of specific allotment after 1st April.

2. It is remitted to the Financial Department whether such allotment shall be made from Port Funds or Provincial.

Madras.

Sir,

to be

I have the honor to inform
you that, on docking the Steamer "Fred
and May" for ordinary repairs prior to
putting in the new boiler lately received
from England, it is found that her bottom,
which has been repeatedly patched during
the last 10 years is in a much more de-
cayed state than was expected; so that
it must now be entirely renewed for the
safety of the vessel.

2.

The accompanying estimate,
amounting to Rupees 7,867, accordingly pro-
vides for a new bottom throughout, also
for

for repainting and new decking. It includes also the cost of docking and refitting the engines (which have been taken out in order to make the repairs) and fitting in the new boiler.

3. The Steamer "Frank and Ada", which I understand is now on her voyage down from Calcutta, will take the place of the "Fred and May" for the present at the dredging of the Coenada river, and the "Fred and May", when her repairs have been completed, will be available for use on the Coringa river, if it be decided to provide plants for dredging there; or one of these vessels may be transferred to some other port.

In the latter case I beg to suggest that the Steamer "Frank and Ada" be transferred elsewhere without delay, as this is the most favorable time of the year for taking her down

down the coast.

50

4. If funds cannot now be provided, the repairs of the "Fred and May", if sanctioned, may be proceeded with at once, and paid for after 1st April.

I have the honor to be
Sir

Your Most Obedt Servt
P. Scatty. Major R.E.
District Engineer Godanery
