THE information required by the Government of India cannot be supplied from the records in the Board's Office; but at the requisition of the Controller of Public Works Accounts, the Board have already called for it from the districts for the works noted in the margin. Statements containing the information for the works marked with an obelisk in the margin, having been received from Collectors, have been forwarded to the Controller, and copies thereof are herewith submitted with the instructions issued for preparing them. From the statements received, it will be observed that it has not been found possible in each case to obtain the revenue for ten or fifteen years previous to the constructions, and that in some cases it could not be ascertained if the land irrigated under the work was formerly dry cultivated or waste

2. The Board think that the employment of a special officer is unnecessary, and that all the information that can be collected will be collected by the District Officers

3 With reference to paragraph 14 of the memorandum printed with the Government Order, the Board observe that it is useless to endeavour to estimate the *collections* under each work of irrigation. As a rule, the assessments of irrigated lands is fully collected, and for all practical purposes, the demand, after allowing for remissions, may be taken as the receipts. Any estimate of collections

ORDER THEREON, 6th March 1875, No. 650

IRRIGATION, No 10

Account.

HIS EXCELLENCY the Governor in Council considers that it will be desirable to employ a special Revenue Officer to collect the information required for entry in the Revenue Accounts of Irrigation works. Probably an officer of the grade of Deputy Collector would suffice. The selection will be made in the Revenue Department. The special Revenue Officer will arrange either to work in the same district as the Deputy Controller, or to take up such investigations as may be more immediately required.

2 The Controller of Public Works Accounts will submit quarterly a statement showing for each work for which Capital and Revenue Accounts are to be kept, the information obtained from the District Revenue Officers and transmitted to him by the Board, as well as that wanted to complete the returns up to the close of the preceding fasli.

3 A similar statement showing the progress made in the preparation of statements of outlay upon the several works will be submitted by the Controller at the same time.

4 Ordered, also, that a copy of these Proceedings be forwarded to the Government of India for information.

No 2,427

PROCEEDINGS OF THE BOARD OF REVENUE, dated 28th August 1874

Read the following letter from W S. FOSTER, Esq, Acting Collector of the Godavery District, to J GROSE, Esq, Secretary to the Board of Revenue, dated Cocanada, 25th July 1874, No. 258 —

REFERRING to paragraph 2 of the Board's Proceedings of the 8th ultimo No 1,377, I have the honor to state that the amount of Rupees 4,99,608 may be taken as the revenue of the delta taluqs prior to the anicut. This, however, does not include the revenue of the taluqs since transferred to this district from the late Masulipatam District. This may be estimated at Rupees 15,000.

2 I beg to enclose a statement showing the revenue of the delta taluqs for some of the years prior to the construction of the anicut. The accounts of Faslis 1246, 1254, and 1255 are not forthcoming.

3 The revenue of Fash 1253 is found to be Rupees 4,46,683. There is a difference of about Rupees 50,000 between this and the revenue of Fash 1256, and this is due to some estates, which were wet, having reverted to Government in the interim.

No 1,377.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 8th June 1874

Read the following letter from W. S FOSTER, Esq, Acting Collector of the Godavery District, to J GROSE, Esq, Secretary to the Board of Revenue, dated Cocanada, 18th December 1873, No 416 —

REFERRING to the Board's Proceedings of the 6th August 1873, No 1,505, I have the honour to forward, herewith, three statements prepared in the form prescribed in the Board's Proceedings of the 9th May 1873, No 751, showing the * Eastern Delta, Western Delta, and Central irrigated area and revenue of the three works* referred to in the letter from the Controller of Public Works Accounts, embodied in the Board's Proceedings of the 19th March 1873, No 409 Besides the works mentioned some lands are irrigated in this district by the Kistna canal under the Kistna anicut A similar statement for the canal in question is also enclosed

2 The Board will observe that the information is given only from Fasli 1277. It has been already brought to the Board's notice that information for all the years before the anicut was built, and for several subsequent years, is not available. The village accounts up to Fasli 1274 had been destroyed, and some of those of Faslis 1275 and 1276 are not on record, so that information is not available up to Fasli 1276

3 The Controller of Public Works Accounts has asked for information of irrigated revenue, and it was furnished to him. For the sake of correspondence with it I have opened another column, "Miscellaneous items," in the statements herewith sent

4. The exact miscellaneous revenue of the Narsapur Taluq for Fasli 1277 is not known, as the demand accounts of that fasli are not on the Taluq records It has been estimated in this office with reference to the revenues of the subsequent Fasli 1278

5 The information asked for in Board's Proceedings of the 30th July last, No. 1,439, is not given, as the increase from the Irrigation works is not known, as the revenue before the construction of the work cannot be ascertained.

COCANADA,
18th December 1873

(Signed) W S FOSTER,
Acting Collector

THE statements received with the foregoing letter will be printed and copies thereof forwarded to the Controller of Public Works Accounts, with reference to his letter, dated 6th January 1873, No 2,306

2 The Collector states that the revenue for ~~many~~ of the years previous to the anicut cannot be ascertained. He is informed that absolutely correct figures are not required, and that an estimate of the amount will be sufficient, and he is accordingly requested to consult the figures contained in the printed Selections called "Reports on the direct and indirect effects of the Godavery, Kistna, and Coleroon Anicuts," and after making such further inquiries as may be necessary, estimate the amount as approximately as possible. The collections in the Delta Taluqs for Fash 1256 are given in the printed Selections (page 162) at Rupees 4,99,608, while the revenue of the taluqs in Fash 1282 was Rupees 21,79,097, as given in the statements now forwarded by the Collector. Mr Foster is requested to state whether the collections of Rupees 4,99,608 may be taken as the revenue of the Delta Taluqs prior to the anicut.

3 The information is urgently required, and the Board believe that with some trouble the Collector will be able to estimate the revenue for at least one or two years prior to the anicut of all villages now receiving the anicut supply.

(True Copies and Extract.)

(Signed) J GROSE,
Secretary

To the Controller of Public Works Accounts.
.. the Acting Collector of the Godavery District
Copy to the Collector of the Kistna District.

No 1,323

PROCEEDINGS OF THE BOARD OF REVENUE, dated 2nd June 1874.

Read the following letters.—

From W. S. WHITESIDE, Esq, Collector of North Arcot, to J GROSE, Esq,
Secretary to the Board of Revenue, dated Vellore, 21st January 1874,
No 26

REFERRING to the Proceedings of the Board of Revenue noted in the margin,
I have the honour to forward a state-
ment showing the return from the Irrigation works enumerated in Board's
Proceedings, dated 9th May 1873, No 751.
" " 30th July " " 1,439
Proceedings, dated 19th March 1873, relating to this district, compiled from
information received from the taluqs

2 There are no statistics in my record with which to compare the accuracy
of the Taluq accounts.

1874.

Collector.

From W S. WHITESIDE, Esq, Collector of North Arcot, to J. GROSE, Esq, .
Secretary to the Board of Revenue, dated Palmanair, 15th April 1874,
No 185.

ADVERTING to the Board's Official Memorandum, No 391, dated 20th ultimo,
I have the honour to return herewith the statement received with the above, the
necessary corrections having been made in red ink as therein pointed out

THE statement received from the Collector will be printed, and a copy
forwarded to the Controller of Public Works Accounts, with reference to his
letter, dated 6th January 1873, No 2,306

(True Copies and Extract)

(Signed) J GROSE,
Secretary.

Irrigation Works—in North Arcot District
—Printed copy of Statement from Collector
showing return from — forwarded to Controller
of Public Works Accounts.

No 1,209

PROCEEDINGS OF THE BOARD OF REVENUE, dated 22nd May 1874.

Read the following letter from J B. PENNINGTON, Esq, Acting Collector of Trichinopoly, to
J GROSE, Esq, Secretary to the Board of Revenue, dated Chettikolam, 10th April
1874, No 74 —

WITH reference to Board's Proceedings, dated 19th March and 9th May 1873, Nos 409 and
751 respectively, I have the honour to forward herewith a statement in the form that accom-
panied the latter Proceedings, showing the irrigated area and revenue under the Nandaiyar
anicut in this district for six years previous, and for all the years subsequent to the con-
struction of the anicut The accounts for the preceding nine years required in the above
Proceedings are not forthcoming in either of the
two taluqs* which benefit by the anicut

*Trichinopoly and Udaiyarpalayam

2 The accounts even for the six years previous to the existence of the anicut were obtained
with great difficulty, as they had to be prepared from the old accounts which were in possession
of the Curnams, several of whom are new hands and know nothing about the old accounts

3 The information as to how much of the present irrigated area was waste, and how much
was held formerly under putta as dry land, was not collected without much difficulty and trouble.

Enclosure No 1

No 2,447

PROCEEDINGS OF THE BOARD OF REVENUE, dated 2nd December 1873

Read the following letter from R K PUCKLE, Esq, Collector of Tinnevely, to H E STOKES, Esq, Acting Secretary to the Board of Revenue, dated Nannagaram, 18th October 1873, No 562.—

I HAVE the honour to forward the information called for in Board's Proceedings, Nos 751, dated 9th May, 846, dated 13th June, and 1,439, dated 30th July 1873.

2. There is little or no increase of revenue from the Streevaicuntam Anicut as yet, for the work cannot be said to be completed. The top course of stone is not yet laid on the anicut, the new tanks are not yet revetted, and the field channels are not yet dug.

3 The works have remained in abeyance for some time past, and though much has been written, but little has been done of late, and it now seems very uncertain when the anicut will be ready to irrigate.

4 I have taken Fash 1280 when the anicut first crossed the river as the year in which it was built.

1874.

No 751

PROCEEDINGS OF THE BOARD OF REVENUE, dated 9th May 1873

Read the following letter from S BROCK, Esq, Controller of Public Works Accounts, to J. GROSE, Esq, Secretary to the Board of Revenue, dated Fort St George, 4th April 1873, No. 21 —

I HAVE the honour to acknowledge the receipt of the Proceedings of the Board of Revenue, No 409, of the 19th ultimo, and regret that recent orders of the Government of India compel me to ask you to let me have the information regarding the returns from irrigation works in a somewhat different form to that in which it has been furnished

2 Your figures merely show the *assessment* for each year, and include in one sum water rates and land revenue The Government of India now require that both assessments and *actual collection* should be shown, and that under both heads water rates and land revenue should be distinguished They also wish the unrealized balance at the end of each year to be entered Moreover, in paragraph 5 of G O, No 837, dated 17th March 1873, it is ordered that the standard revenues for larger works shall be determined from the revenue of the fifteen years previous to the commencement of the works

3 I have, therefore, to request that you will, at your earliest convenience, furnish me with the necessary information and that you will convey the necessary intimation to the Collectors referred to in paragraph 4 of the Board's Proceedings under acknowledgment

4 I would also ask that the information may be given according to *official years*

COMMUNICATED to the Collectors concerned with a request that they will submit the information called for by the Controller for the works enumerated by him in his letter recorded in the Board's Proceedings, dated 19th March 1873, No 409, in the accompanying form instead of in that prescribed in the Board's

Upper Anicut }
Lower Anicut } Tanjore
Pennair Anicut, Nellore
Allayabad Anicut } North Arcot
Cheyar Anicut }

Proceedings above quoted The information should be given for the works noted in the margin also, as that furnished by the Board from the records

in their office is stated by the Controller to be insufficient

2 Collections are made in the gross, and they cannot be separately given for the irrigated lands under each work The statement will, therefore, embrace only the net demand on the lands for fifteen years previous, and for all the years subsequent, to the construction of each work

3 It is impossible to give the information for the official years as all the revenue accounts are kept for the Fash year.

No 409

PROCEEDINGS OF THE BOARD OF REVENUE, dated 19th March 1873

Read the following letters —

From S BROCK, Esq, Controller of Public Works Accounts, to the Secretary to the Board of Revenue, dated Fort St George, 6th January 1873, No. 2,306.

To enable me to comply with a call made by the Accountant-General of the

If the information is obtainable the number of acres of land irrigated during the year by each canal
On the receipt side of the account the heads given in the form should be adhered to, but the income should be entered under two heads in two distinct columns, viz —
I Assessments of year.

II Actual receipts during year
As regards the revenue charges of 1871-72 there ought to be no difficulty in ascertaining the amounts to be debited to the Revenue Account of each of the several projects referred. These charges consist chiefly of outlay on works not debitable to capital, expenditure on repairs and proportion of charges for "Establishment" and "Tools and Plant". The two former can be obtained from the records of your office, while the amount of the latter can easily be calculated. It is only where the receipts are concerned that the matter becomes difficult.

Of these receipts the revenue derived from navigation and plantations and other miscellaneous items is obtainable from your records. For the other receipts there is no alternative at present but to accept the figures given by the Collector and the Board of Revenue, and the entries should be prepared accordingly.

Under the second head (increased land revenue due to irrigation works) the amounts must be taken from the figures given by the local authorities and the Board of Revenue.

Under 6, (proportion of establishment employed under Civil Officers), the Board of Revenue should be asked what portion of the Civil Establishment employed in collection of land revenue may fairly be considered as due to irrigation works, and the amounts should be entered accordingly.

blishment employed in the collection of land revenue may fairly be considered as due to irrigation works.

Public Works Department, and in pursuance of the instructions communicated, to me by that officer (*vide* marginal extracts), I have the honour to request that you will be good enough to obtain and furnish me, at your earliest convenience, with information on the following points regarding the irrigation canals, a list of which is herewith forwarded —

(1.) The number of acres of land irrigated during the year by each canal from the earliest date

(2.) The assessment of land for each year

(3.) Increased land revenue due to irrigation works

2. While furnishing information on the above points please be good enough to state what portion of the Civil Establishment employed in the collection of land revenue may fairly be considered as due to irrigation works.

From the same officer, dated Fort St George, 27th January 1873, No 2,491

In continuation of this office letter No 2,306 of the 6th instant I have the honour to request that you will be good enough to favour me, at your earliest convenience, with information regarding the exact amount of increased land revenue derived from lands bearing a consolidated assessment, and which are dependent for their irrigation on the Kistna Delta Works. I have also to request that similar information may be furnished in respect to other districts in which there may be a water-rate on some lands and a consolidated assessment on others, both dependent for their water-supply upon the remaining works mentioned in my letter above quoted

2 The statements in which the information now applied for has to be recorded being urgently required by the Accountant-General of the Public Works Department, I request that the matter may receive your early attention.

- Tanjore*
- 1 Upper Anicut
- 2 Lower Anicut
- Nellore*
- 3 Pennair Anicut
- North Arcot*
- 4 Allayabad Anicut
- 5 Cheyar Anicut.

For the works noted in the margin information regarding the revenue due to irrigation is readily available in this office, and will be forwarded to the Controller

It must, however, be observed that in calculating the revenue there has been a slight deviation from the course sanctioned by Government in their order dated 25th July 1872, No 1,766. No account has been taken of the Miscellaneous items of revenue, such as quit-rents on Inam lands and assessment of lands cultivated after Jamabundy, nor of the remissions granted on account of Shavy, etc, information regarding them not being obtainable from the accounts of past years

2 The difference between the revenue raised prior and subsequent to the construction of each work should be regarded as the increase due to the work

3 The Collectors of Godavery and Kistna have more than once represented that information regarding the revenue prior to the anicuts, and for some years subsequent to their construction, cannot be had. It will be, as far as possible, collected from the records in this office and forwarded to the Controller at an early date.

4 The other Collectors concerned will be requested to submit the information called for by the Controller for the works noted in the margin as early as possible in the annexed form

- Nellore*
- * Channel from Venkatagerry River to Chennoor Tank
- Chingleput*
- Palar Anicut Project Kumbuncal Channel

- Tinnevelly*
- Streevicoondam Anicut Project

5 With reference to the Controller's inquiry in the last paragraph of his letter No 2,316, above recorded, he is informed that the cost of collecting the revenue under the irrigation works must be assumed to be in the proportion which the entire land revenue charges of the district bear to its entire revenue

Fishes	GOVERNMENT LAND IRRIGATED		INAM AND ZEMINDARI LANDS IRRIGATED		TOTAL	
	Extent	Assessment in cluding charge for Water whether in the shape of Water rate, Fasaljasti, Teerwajasti, in clusive of Remissions	Extent	Charge for Water whether in the shape of Water rate, Fasaljasti, Teerwajasti, in clusive of Remissions	Extent	Assessment

P. H. Dept
 Proceedings of the Madras Government
 Read the following:

Pro. of the Board of } (N. 3363 d/9 Dec 1874)
 Revenue }

His Excellency the Governor in Council considers that it will
 be desirable to employ a Special Revenue Officer to collect the
 information required in entry in the Revenue accounts &
 migration works. Probably an Officer of the Grade of District Collector would suffice, and
 the Board of Revenue will be requested in the Revenue Dept
 to make a selection. This Special Revenue Officer will
 arrange either to work in the District as the Deputy Collector,
 or to take up such investigations as may be more immediately required.
 The Government accept the conclusion of the Board
 of Revenue that the services of a Revenue Officer need
 not be made available for the special duty of
 placing the Revenue accounts on a proper footing,
 and the Board will be requested to issue such
 instructions to the several District Officers as will
 ensure due attention being
 given to the matter.

Stamp of the Board as to
 expediency of employing
 Special Officer for the Rev.
 and of the inquiry - If the
 Board is satisfied

given to this important subject.

2. The Controller of Public Works Accounts will submit quarterly a statement showing for each work for which Capital and Revenue accounts are to be kept the information obtained from the District Revenue Officers and transmitted to him by the Board, as well as that wanted to complete the returns up to the close of the preceding Fyuly.

3. A similar statement showing the progress made in the preparation of statements of outlay upon the several works will be submitted by the Controller.

Not for a time at least this matter will be in one hand. I may pass for Dist. & but I account the Result. Controller - A Dept. Coll. of the Service of persons to

28/1

By the Dist. Controller taken for about I think it was he will be at.

- to visit a Civil Officer in the line as suggested & desired by the Secy. Mr. J. J. L.

J. J. L.

at the same time.

Ordered also that a copy of these Proceedings be forwarded to the Government of India for information.

21/1/75

M. M.

I presume the Deputy Controller will be about and if so, it may be well that he should be accompanied by a Civil Officer, but this will rather be the subject of the Secy of the Govt. I hardly see the need for it.

What is the Deputy Controller doing in this matter - what does he intend to do?

- To The Rev. Deputy
- Chief Engr. for Irrigation
 - Controller of P.W. Accounts
 - All District & Deputy Engrs.
