3 Under "Original Works," Civil Buildings, Provincial, several New Works, for which funds are required, have been left unprovided for, owing to there being no money available, and for the same reason the additional grants required for "Repairs" under Military and Civil Buildings, Provincial, have not been made, but should further savings be reported hereafter, provision will be made for such works

4 The Superintending Engineer of Chingleput applies for a sum of Rupees 9,360 for traverses around the Powder Magazine at the Mount, presuming that there is no allotment for the work, but Rupees 9,960 having been appropriated for the work from the Reserve of 18[illegible] in G O, No 599 of 7th March 1874, the excess allotment of Rupees 600 now been withdrawn and transferred to another work

5. Similarly the District Engineer of Tinnevelly applies for Rupees 2,000 for the Post Office at Virdoputty, Rupees 2,550 having been allotted for the work in G O, No 2,731-A of 28th September 1874, the difference between that sum and the amount applied for by the District Engineer, viz, Rupees 550, has been withdrawn now

6 Several incomplete works of previous years, for the completion of each of which Rupees 500 and below are required in the current year, have been included in the district statements, but as no specific allotments are necessary* for such works, they have been expunged

The foregoing papers give cover to statements of grants surrendered, and of supplemental allotments applied for, which District Engineers hope to utilize, if made available, before the close of the official year.

2. The following redistribution of funds is sanctioned -

(A.2 Statement)

3. Under "Original Works" Civil Buildings, Provincial, several new works for which funds are required, have been left unprovided for, owing to there being no money available, and for the same reason the additional grants

required for "Repairs" under Mutteary and Civil Buildings Provincial have not been made; but should further savings be reported hereafter, provision will be made for such works.

4. The Superintending Engineer of Chingleput applies for a sum of Rs 9,360 for Traverses around the Powder Magazines at the Mount, presuming that there is no allotment for the work, but Rs 9,960 having been appropriated for the work from the Reserve of 1874-75 in G.O No 599 of 7th March 1874, the Rs 600 allotment of Rs 600 has now been withdrawn and transferred to another work.

5. Similarly the Electrical Engineer of Tinnevelly applies for Rs 2000 for the Post Office at Nordoopatty. Rs 2550 having been allotted for the work in G.O. No 2731A of 28th September 1874, the difference between that sum, and the amount applied for by the Electrical Engineer, viz. Rs 550, has been withdrawn now

6. Several incomplete works of previous years for the completion of each of which, Rs 600 and below are required, in the current year, have been included in the Electrical Estimates, but as no specific allotments are necessary for such works, they have been expunged.

7. The additional Grants, applied for by the Electrical Engineer of Bellary, for the following works cannot be provided until the submission of revised Estimates.
