Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
11th March 1875.*

No 289 Read the following letter from Lieutenant-Colonel J. H. M. SHAW-STEWART, R E, Consulting Engineer for Railways, to Colonel G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Madras, 23rd February 1875, No 114.—

With reference to paragraph 5 of the Order of Government, under date 6th January 1875, No 16, I have the honor to forward an estimate, amounting to Rupees 1,400, for fitting thirty-five third-class carriages with shutters, in order to render them suitable for the use of third-class passengers by night trains. These carriages are constructed to carry sixty passengers, and are divided into three separate compartments, each accommodating twenty persons, and it is considered that the traffic can be worked more economically with them than with the old second class carriages holding fifty only, which it was at first proposed to use for this purpose. Sanction has been communicated to the Agent, and the work will be put in hand at once.

2 Funds to meet the expenditure are available from Schedule B under "Reserve to meet Unforeseen Expenditure" in "Carriage and Wagon Department" in the Budget Estimate for 1875-76, and the sanction will lapse on the 31st December 1875.
