No 361 Read the following letter from Lieutenant-Colonel C S HEARN,
Inspector-General of Police, to Colonel G. W WALKER, R E Secretary
to Government, Public Works Department, dated Madras, 26th February
1875, No. 1,038 —

I HAVE the honor to forward a letter from the Superintendent of Police, Bellary,
regarding the accommodation for the Police guard in the Deputy Tahsildar's
Cutcherry at Yemiganoor. I would suggest that the slight alterations of the
standard plan sanctioned for certain Cutcheries in North Arcot (G. O, No. 272,
dated 4th February 1874,) should be made universal in all districts.

No 362. ORDER THEREON, 15th March 1875, No. 721. :

CIVIL WORKS, No 16.

THE alteration in question, which is
simply the substitution of walls with
windows for open wooden gratings in
the sides of the Police guard-rooms attached to Deputy Tahsildars' Cutcheries,
may be universally adopted, as recommended by the Inspector-General of Police.

The Inspector General of Police
Madras.

Sir, I have the honor to bring to your notice
that while at Bangalore of Colonel Sahib
I paid a visit to the Deputy Tahsildar's
Court house and Subjunctory Jail now under
construction there.

As at the Cutcherry of Bellary the intention
in your letter to the Secretary to Government
P.W.D. no 132 dated 15 January 1874 on which
Government Order no 272 of 21 February 1874
was passed vide P.W. Code 14 February
1874 page 28. The Police guard room in this
Cutcherry will afford little or no protection

to records from the weather either to fire or arms and records
are required if the plan on which it is being constructed
in the present design one;

work which is for the main at both sides from the end of the guard room
only... the next to the record room and running up
towards a half way to the wards is there (half way) to
Police Station and in consequence there will be no
shelter whatever.

I would therefore request that
The Government may be moved to direct
such alterations in this plan as may be
necessary.

I enclose a rough ground plan

of the Police guard room as it is at present
proposed to be constructed.

It will of course be necessary for
the Police to have a view of the wards which
run beyond - The guard room on each side,
and it would ~~be~~ consequently inadvisable
for a wall to be carried right up to the
wards; but in my opinion from A to B on
both sides, an ~~small~~ should be substituted
for the open work at present intended and
I even question whether on each side the
wall should not be carried a little further
towards the ward than the points A & B
which are half way from the record room
wall to the wards (but this the R. W. should
decide) - They should stop at such
a point as to allow a free view of the
wards.
