Dated	17-3-	1875	
		-195-	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
17th March 1875*

No. 425. Read the following letter from Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Lieutenant-Colonel J MULLINS, R.E., Chief Engineer for Irrigation, dated Camp Yerragoontla, 13th February 1875, No. 1,799 —

I HAVE the honor to submit, for the sanction of Government, an estimate, amounting to Rupees 1,990, for clearing the Yellanur Irrigation Channel in the Tadputry Taluq, accompanied by a report and cross sections

1 Old Survey	
1 Cross Sections	
1 Estimate,	
1 Report.	

2. In your memorandum, No. 193, dated 28th March 1873, it was suggested that the old channel should be cleared in preference to making a new cut along a portion of the channel, for which an estimate of Rupees 3,090 or Rupees 2,422, less Rupees 668, value of work to be performed by village labor, was sent in. The late District Engineer, after visiting the locality, decided that the existing channel should be cleared, the excavation being made in steps as shown in the sections, and the sand carried to a distance of ten yards clear of the edge of the channel. The Collector was requested to have the sum of Rupees 497-8 0, one-fourth of the estimated value of the work, recovered from the villagers before the work was commenced. The Collector has, in reply, written to say that a few of the ryots have paid in Rupees 36, and the remaining ryots have refused to pay anything. He thinks that the repairs to the channel should be carried out at the expense of Government, as the ryots cannot, under the existing orders, be compelled to make the payment.

3. Under the above circumstances, and as the estimate exceeds the average revenue by Rupees 145, it is submitted for the orders of Government.

No. 426 ORDER THEREON, 17th March 1875, No. 742.

IRRIGATION, No 28.

THE estimate, amounting to Rs 1,990, for clearing the Yellanur Channel, in the Bellary District, is sanctioned. It is observed that the average revenue under the channel is Rupees 1,846 (True Extract.)

Colonel, R.E.,
Secretary to Government.

Sir,

I have the honour to submit for the sanction of Government an Estimate amounting to Rupees 1990, for clearing the Yellanore Irrigation Channel in the Tadpatry Taluk, accompanied by a report and cross sections.

2. In your Memorandum No. 193 dated 28 March 1873 it was suggested that the old channel should be cleared in, in preference to making a new cut along a portion of the channel, for which an Estimate of Rupees 3090 or Rupees 2422 of Rs. 668 value of work to be performed by village labour was sent in. The late District Engineer after visiting the locality decided that the existing channel should be cleared, the excavation being made in steps as shown in the sections and the sand carried to a distance of 10 Yards clear of the edge of the channel.
