Not to be folded or roughly handled

No. 316. Read the following endorsement of the Chief Engineer for Irrigation, dated Camp at Biamnadavum, 24th February 1875, No. 10 :—

From J. H. LATHAM, Esq, Chief Engineer and Manager of the Madras Irrigation and Canal Company, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Kurnool, 16th February 1875, No 20

1 HAVE the honor to say that I have compared the Returns A. forwarded with your letter, No. 6, of 27th ultimo, with the returns of Messrs Wilks and Dodson sent me with their No. 101, of 8th July last, and No. 426, of 16th December last, respectively.

2. The enclosed shows the discrepancies, and these, I suggest, should be cleared up at once. It would seem an untrustworthy "settlement" in which so many items remain unsettled; and therefore it would be more business-like to defer the entry in the accounts of the settlement in its present state, at least until it is certain that the settling officers are agreed in what is settled, and in what areas or rates are left unsettled for arbitration or further information.

3. So far as I can see, the lists of the Engineers include tank irrigation and tank and koonta filling. These the Collectors' lists seem to omit, but they seem to insert some dry assessment. These differences will not account for the whole of the Rupees 10,500 differences.

4. I suggest that the settling officers meet again to make a full statement of the sums leviable on the four accounts of irrigation, tank, and koonta filling, and dry assessment separately, giving the total of each village on each account; each account to be in duplicate and signed by both settling officers, of whom each should retain a copy.

IRRIGATION STATEMENT FOR SEASON 1873-74 (FASLI 1283)

On the receipt from the Collectors of Kurnool and Cuddapah of the statements showing particulars of cultivation, &c., under the Madras Irrigation and Canal Company's Canal for the year 1873-74, copies of these statements were furnished

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

IRRIGATION, No. 36.

These Proceedings will be communicated to the Collectors of Kurnool and Cuddapah, with a view to the early

20th March 1875.*

SUBMITTED to Government.

On the receipt from the Collectors of Kurnool and Cuddapah of the statements showing particulars of cultivation, &c., under the Madras Irrigation and Canal Company's Canal for the year 1873-74, copies of these statements were furnished to the Chief Engineer and Manager, and this officer now transmits a comparative statement showing important differences between the Revenue Officers' and the Company's accounts. It appears to be desirable, therefore, that the discrepancies should be inquired into and cleared up in order that the canal revenue may be accurately known and accounted for.

(Signed) JOHN MULLINS, Lieut. Colonel, R E,
Chief Engineer for Irrigation.

No 517.

ORDER THEREON, 20th March 1875, No. 790.

IRRIGATION, No. 36.

THESE Proceedings will be communicated to the Collectors of Kurnool and Cuddapah, with a view to the early determination by them, in communication with the Chief Engineer and Manager, Madras Irrigation and Canal Company, of the correct areas of cultivation under the canal and of the demands for water supplied.
