G.O. No.	7970	Press	C. S. S. S. S.
B.P. No.		Mis.	
Dated	20-3-1953		

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
20th March 1875.*

No 530D. Read the following letter from T. MOSS, Esq., Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 6th March 1875, No 10,743.—

I HAVE the honor to report, for the information of Government, that it is necessary to provide Rupees 25,000 to meet the increase to Capital during the current year in the Dowlaishweram Workshops, as will be seen from the following extract from a letter, No. 308, of the 27th ultimo, received yesterday from the officer in charge of the Workshops.—

“ Although the increase on Capital is Rupees 52,665-0-11 up to the end of January, it will not be so much by the end of the official year, as there is a probability of an amount of Rupees 20,000 being adjusted, under the head of “Public Department,” and also probably there would be a further reduction of a sum of Rupees 15,000 in the ensuing two months of this year, on account of other bills, &c, to be adjusted. I therefore presume that a sum of Rupees 25,000 is necessary to be provided this year to meet “increase to Capital.”

“ In conclusion I would remark that the cause of such an increase on the Capital this year is entirely owing to the value of the supply of stores received from London, viz, Rupees 24,000.”

2. The Workshops being classed as Imperial, the increase to Capital will have to be debited to Tools and Plant, Imperial, and the amount being in excess of Rupees 10,000 the sanction of the Government of India to the appropriation will be necessary.—*Vide* G. O., No. 2,843, of the 26th September 1865.

3. Although the debit to Tools and Plant, Imperial, will exceed the budget provision under that head, I do not anticipate that the total budget grant will be exceeded, the District Engineer, Presidency, having informed me in reply to a demi-official letter that the amount (Rupees 24,000) placed at his disposal for the purchase of timber (*vide* 2nd paragraph of my note printed with G. O., No. 129, of the 16th January 1875,) will not be utilized for the purpose, and has been surrendered

4. I need hardly add that reports regarding probable increase to Capital of Workshops cannot be made with any degree of certainty till near the close of the year.

5. I take the opportunity to mention that the matter referred to in paragraph 2 of G. O., No 1,113, of the 29th April 1874, does not appear to have been disposed of.

No. 530E ORDER THEREON, 20th March 1875, No. 797-C.

ACCOUNT, No. 36A.

THERE being no funds at the disposal of Government under “Tools and Plant” or under “Imperial Services” generally, the Controller of Public Works Accounts is requested to suggest transfers from any other heads of service to meet the increase on Capital in the Dowlaishweram

Proceedings of the Madras Government, Public Works Department,
20th March 1875.

Workshops, after ascertaining from the latest Progress Reports from District
Engineers the sources from which such transfers can be effected

(True Extract)

(Signed) G. W. WALKER, Colonel, R.E.,

Secretary to Government.

Office of the Controller of
P. & Accounts
Madras 6th March 1875

No 10953

The Controller of
P. & Accounts

The Secretary to Government,
Public Works Department,
Fort St. George.

Sir,

I have the honor to report for the information
of Government, that it is necessary to provide
about Rs 25,000 to meet the increase to Capital
during the current year on the Downish
Government Workshops, as will be seen from
the following extract from a letter No 318
of the 27th ultimo received yesterday from the
Officer in charge of the Workshops.

"Although the increase in Capital
was Rs 26,665 up to the end of January
it will not be so much by the end of
the official year as there is a probability
of an amount of Rs 2,000 being advanced
under the head of Public Department
and also probably there would be a
further reduction of a sum of Rs 5,000
in the ensuing 2 months of this
year, on account of other bills to
be adjusted. I therefore presume
that a sum of Rs 25,000 is necessary
to be provided this year to meet the
increase to Capital."

In conclusion I would remark
that the cause of such an increase
in the Capital this year is entirely
owing to the value of the ^{the supply of} stores re-

from London. by Rs 24000—.

2. The Workshops being classed as Imperial, the increase to Capital will have to be debited to Tools and Plant Imperial and the amount being in excess of Rs 10,000 the sanction of the Government of India to the appropriation will be necessary. Vide G. O. No. 2845 of the 26th September 1870.

3. Although the debt to Tools and Plant Imperial will exceed the budget provision under that head, it is not anticipated that the total budget grants will be exceeded, the District Engineer, Presidency having informed me in reply to a semi-official letter that the amount (Rs 24000) placed at his disposal for the purchase of timber (vide 2nd para of my note printed with G. O. No. 29 of the 15th January 1870) will not be utilized for the purpose and has been surrendered.

4. I need hardly add that reports regarding probable increase to Capital of Workshops cannot be made with any degree of certainty till near the close of the year.

5. I take the opportunity to mention that the matter referred to in para 2 of G. O. No. 113 of the 29th April 1874 does not appear to have been

disposed of.

I have the honor to be
Sir

Your most obedient servant
J. M. J.
