

*Proceedings of the Madras Government, Public Works Department,
23rd March 1875.*

No. 575. Read the following letter from Colonel A. S. MOBERLY, R.E., District Engineer, Cuddapah, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp Mopaulgoonta, 25th February 1875, No. 2,248.—

With reference to G. O., No 316, of the 4th instant, I have the honor to submit the accompanying certificate from the Zillah Surgeon of Cuddapah, regarding the state of health of Mr. Sub-Engineer Seton, together with a copy of his case. I have always found Mr. Seton hard working and attentive, but the state of his health has been against him. If Government can give him a charge where he will not be so much exposed, I think they would find Mr. Seton could work well for some years to come.

No. 576. ORDER THEREON, 23rd March 1875, No. 822.

ESTABLISHMENT, No. 42.

MR. CONDUCTOR SETON cannot continue longer on the effective strength of the Public Works Establishment, but must take his pension, for which the District Engineer will make application in due course. He may when pensioned obtain suitable employment in a Municipality, or even in a cantonment, by application in the proper quarters.

(True Extract.)

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government.

To the District Engineer, Cuddapah
,, Military Department

Certified that I have carefully
examined Mr. Conductor Charles
Seton, sub Engineer in the D.P.W.,
Buddapah District, son of Mr.
George Seton. His age is by his
own statement, 39 years and
6 months, and by appearance
about same. I am of opinion
that Mr. Conductor Charles
Seton is fit for further service
of a less laborious character
than that which he has been
doing.

Medical case of
Statement of Mr. Conductor
Charles Selton, Sub Engineer,
D. P. W. Cuddapah Dis-
trict.

I have known Mr. Selton
from the year 1860 when
he joined this District as
an Engineer in the D. P. W.
until his promotion to Super-
visor in 1864, when he was
transferred to the Tanjore
District.

2. In February 1871 Mr.
Selton returned to the Dis-
trict and in the month of
May he was in a very bad
state of health and came
under my treatment for
a large eczema on
the upper part of his right
thigh and, which subsequently

broke out and damaged the
tibia to a great extent.

Towards the end of July find-
ing that he was not getting
better here I advised him
to proceed to Annapolis for
a change and for further
treatment. Mr. Eaton en-
tered the General Hospital
and underwent an operation
for the removal of a piece
of diseased bone from his
right leg, by Dr. Ward, the
Surgeon of that Institution,
who discharged him as fit
for duty, in May 1872.

3. In August 1872 Mr.
Eaton was again ill with
a large unhealthy ulcer on
the lower part of right leg,
but no bone was destroyed
or removed, and was neces-
sitated to leave the Dist.

71
for a period of 3½ months.
He rejoined his Range on
the 18th December and
since that time has been
in pretty good health and
has been continuously em-
ployed in the performance
of his duties till July when
he suffered from fever and
subsequently in November
he had another attack of fever
which necessitated his leaving
his Range for a week on
both occasions.

4. Having had so many
opportunities of observing
Mr. Eaton, it appears to me
that his general health, though
considerably improved, his
constitution will not after
the period he has already
served in this unhealthy
climate, stand much fatigue.

or exposure, especially during
the hot weather. He has
lately grown rather stout
and inclined to be obese;
his heart's action is some-
-what sluggish, though other-
-wise healthy. From what
I know of Mr. Eton's previous
attacks of illness and his
present state of health, and
considering the arduous and
onerous nature of his
duties, which necessitate con-
-stant travelling and exposure
in an unhealthy District
like Cuddalore, I am of
opinion, that though he
is fit for further service,
it should be of a less labo-
-rious character than that
which he is now called
upon to perform, and I,
accordingly, have granted

him a certificate to such
effect.
