*Proceedings of the Madras Government, Revenue Department,
5th January 1874.*

No 1. Read the following Proceedings of the Board of Revenue, dated 4th December 1873, No. 2,475 —

Read the following letter from R. W. BARLOW, Esq., Acting Collector of the Chingleput District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Saidapet, 3rd November 1873, No. 508 —

With reference to the Proceedings of Government, Revenue Department, dated 18th June last, No 623, communicated with the Board's Miscellaneous No. 3,940, of the 26th idem, I have the honour to report that I have just returned from Alamadi, which I visited in company with Mr Harrington, and selected new sites for the village and tank. The former is an admirable one, high, easily susceptible of drainage, and plenty of water obtainable. The streets, backyards, etc, will be laid out after consulting Mr. Robertson, but, to ensure plenty of space, I request permission to make over Cawnies 30 15-14, assessed at Rupees 39-11-11, instead of Cawnies 21-7-8, assessed at Rupees 23 3-0, as requested by the ryots.

2 The site selected for the tank will enable it, when constructed, to irrigate the bed of the old tank as well as a large portion of the lands to be given on cowle. Its catchment drainage will be pretty much the same as that which supplied the old tank, but, of course, it is situated higher. The villagers further assert that water might be led to it from the old Booskal Channel. On this point the Range Officer is doubtful until he has taken levels, though fully approving of the site as the best under any circumstances, and I request sanction for an expenditure of Rupees 100 in order that a preliminary survey may be made by the Department of Public Works, and levels taken, and the brushwood cleared from the site of the new tank, in view to ascertaining its capacity, so that an estimate for the construction of a bund of suitable strength may be prepared.

SUBMITTED to Government with reference to G. O., dated 18th June 1873, No 623.

2 The Board have already assigned Cawnies 21-7-8, assessed at Rupees 23-3-0, for the site of the new village. On the Collector's recommendation they now extend the assignment to Cawnies 30-15-14, assessed at Rupees 39-11-11.

3 It appears that a fit place has been found for making a tank, and the Collector requests that Rupees 100 may be sanctioned for clearing and surveying preparatory to framing an estimate. The Board think this should be allowed.

No 2. ORDER THEREON, 5th January 1874, No. 1.

SANCTIONED Rs (100) one hundred.
