2. The late date at which the surrender of Rupees 5,443 under "Repairs Military" in addition to Rupees 5,000 under the same head in letter of 9th January has been made by the District Engineer, Presidency, is calculated to throw the financial arrangements of the department into confusion, and has tended to prevent an orderly redistribution of funds at the end of the current official year. Had a due amount of forethought been exercised by the District Engineer, he would have been in a position to lay before Government much earlier in the year the information which he has now tardily given of his inability to utilize so large a portion of the Military Repair grant placed at his disposal. His failure in this respect must be regarded as unsatisfactory. The grant for the year 1875-76 will be

Rs.	
Rs. 1,200	reduced from Rupees 76,117 to Rupees
Rs. 1,500	5,700 monthly, which must not be
Rs. 3,000	exceeded without the approval of the
	Chief Engineer on the fullest information

of the necessity of outlay in excess of this sum. The difference of Rupees 7,747 will be held at the Chief Engineer's disposal.
