MADRAS RECORD OFFICE

Government of Madras

Public Works DEPARTMENT.

G.O. No.	891	Press
B.P. No.		Mis.
Dated	3-4-195	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
3rd April 1875.*

No. 75. Read the following letter from Colonel E A FOORD, R E., District Engineer, Bellary, to Colonel G. W. WALKER, R E., Secretary to Government, Public Works Department, dated Camp at Goondalhully, 12th February 1875, No. 1,786 —

I HAVE the honor to submit, for the sanction of Government, an estimate, amounting to Rupees 130, accompanied by a sketch and report, for certain alterations required to the guard and harness rooms occupied by the guard of the Royal Artillery at Bellary.

1 Estimate
1 Plan
1 Report

2. The alterations are considered absolutely necessary to afford better accommodation to the number of men that mount guard daily

3. The estimate has been approved by His Excellency the Commander-in-Chief.

4. Funds are available from the current year's grant for "Minor New Works, Military."

No 76. ORDER THEREON, 3rd April 1875, No. 891.

MILITARY WORKS, No. 1.

It is observed that the guard-room and offices for the Royal Horse Artillery at Bellary were originally authorized

in G. O., No. 2,355, dated 19th July 1869, at a cost of Rupees 16,560.

2. In G. O., Military Department, No. 379, dated 31st January 1873, a sum of Rupees 969 was sanctioned for converting a portion of the guard-room into a harness-room, and this amount was increased to Rupees 1,340 on a revised estimate for the work.

3 It is now proposed to spend Rupees 130 in re-appropriating the guard-room for its original purpose, the harness being transferred into the collar-maker's room, thus making a total expenditure of Rupees 1,470 apparently laid out to no purpose.

4. His Excellency the Governor in Council sanctions the estimate, as, no doubt, the present proposal is the correct one Inquiry, however, will be made in the Military Department as to whether the present disposal of the harness is to be considered final.

Barrack Camp No. 1
Barrack
18th December 1874

Report to accompany the
Sketch and Estimate for proposed
alterations to the Guard and Store
Rooms, Royal Artillery Barrack

Amount of Estimate, Rs. 18.

This building was originally intended
for a Guard Room only, but when
completed, it was considered by the
Officer commanding the Battery,
then at the station, to be much too
large, and at his suggestion, the
Guard Room proper was converted
into a harness room, and one of the
smaller rooms, altered to
accommodate the Guard.

It has since been found, that
the smaller room is not large
enough to accommodate the number
of men that mount Guard. Hence
the necessity for the proposed al-
terations.

The Estimate provides for re-
moving the harness stand from

the large room, and repairing them
in an adjacent building, (the Collar
makers shop) and re-hanging
the punkahs taken from the small
room.

The small room at present
occupied by the guards, will be
reconverted into a prison room
it will therefore be necessary to
remove the ventilation door at
B. and D. and the iron bars at
A. and D. Replacing B. with
A. and fixing immovable
bars at D. and D. - the door frame
must be taken out for this.

It will also be necessary to build
up the opening marked H. on the
sketch, with heavy cast work,
to prevent people on the outside
passing anything to the prisoners,
through the iron bars.

a portion of the Guard
Room into a Harness
Room and this amount
was increased to Rs 1340
on a revised estimate
for the work.

It is now proposed
to spend Rs 135 in res-
-appropriating the Guard
Room for its original
purpose the Harness
being transferred into
the Collar Maker's Room
thus making a total
expenditure of Rs 1470
apparently laid out to
no purpose.

His Excellency the
Governor in Council
sanctions the estimate
as no doubt the present

a desire to avoid
the expense of constructing
other subsidiary building
The convenience has proved
anything but a savings
and expenditure rather
than a saving has
resulted from it -
No doubt a Harness
Room will be required
eventually unless in-
-stead some building
not then available
has become so now
