*Proceedings of the Madras Government, Public Works Department,
6th April 1875.*

Read the following letters :—

No. 116. From Major J. BEATTY, R.E., District Engineer, Godavery, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 10th February 1875, No. 3,510.

With reference to G. O., No. 41, of 8th January 1875, I have the honor to report that the District Engineer's Printing Office at this place is a most useful, self-supporting institution; and that its abolition would cause much inconvenience, and doubtless some extra expense to the department if the printing required must all be done at a distance.

2. The printing room now contains three printing presses, provided with five cases of type of various sizes, and two good lithographic presses; the whole of the materials, with the furniture, being of the value of about Rupees 500. Its original cost is not known, but considerable additions have been made at different times, the last in 1872, consisting of new type of the value of Rupees 200.

3. The maintenance of a Press at this office was authorized in G. O., No. 353, of 4th March 1862. All the printing required by the department in the district is done here, with the exception of forms of account furnished by the Controller. The value of work turned out last year was Rupees 835-12-3, which more than covered all expenses. The charges here are regulated, so that outlay and expenditure may counterbalance one another, and I understand that the present charges are less than those of the Collector's and other Presses of the district.

4. Under these circumstances, I trust the additional accommodation required for the printing room in the new office will be sanctioned, and in that case the plan already submitted may perhaps be allowed to stand unaltered.

No. 116-A. From the same Officer, dated 1st March 1875, No. 3,721.

No. 117. ORDER THEREON, 6th April 1875, No. 910.

CIVIL WORKS, No. 8.

• Rupees 8,700.

UNDER the explanation given in the foregoing letter, the plan and estimate* of the District Engineer's Office, Dowlaishweram, as submitted with the letter No. 2,481 of the 5th November last, is approved, and the office will be constructed from Provincial Funds. These Proceedings will be communicated to the Financial Department with a view to an early allotment of funds.

(True Extract.)

Colonel, R.E.,
Secretary to Government,

To the District Engineer, Godavery.

Sir

With reference to G.O. No. 41 of 8th January 1875, I have the honor to report that the District Engineer's Printing Office at this place is a most useful, self-supporting institution; and that its abolition would cause much inconvenience, and doubtless some extra expense, to the Department, if the printing required must all be done at a distance.

2. The Printing room now contains three printing presses provided with five cases of type of various sizes, and two good lithographic presses; the whole of these materials, with the furniture, being of the
valued

value of about Rupees 500. Its original cost is not known, but considerable additions have been made at different times, the last in 1872 consisting of new type of the value of Rupees 200.

3. The maintenance of a press at this office was authorized in G.O. No. 353 of 4th March 1862. All the printing required by the Department in the District is done here, with the exception of forms of account furnished by the Controller. The value of work turned out last year was Rs. 835-12-3 which more than covered all expenses. The charges here are regulated so that outlay and expenditure may counterbalance one another, and I understand that the present charges are less than those of the Collectors and other presses of the District.

4. Under these circumstances I trust the additional accommodation required

5^c
required for the printing room in the new office will be sanctioned, and in that case the plan already submitted may perhaps be allowed to stand unaltered.

I have the honor to be
