*Proceedings of the Madras Government, Public Works Department,
8th April 1875.*

No. 176A. Read the following endorsement of the Assistant Secretary to the Chief Commissioner, Central Provinces, Public Works Department, dated 2nd April 1875, No. 2,481 :—

Copy of letter, No. 155, dated Dumagudiem, 26th March 1875, from Executive Engineer, 1st Barrier Division, to Chief Engineer, Central Provinces.

I HAVE the honor to report that the repairs of canal were completed on 21st, and boats passed through on 24th March. On 26th, this day, the pressure of water forced out the cement from some of the joints between the stones last put in, and although these were fastened down with clamps and iron bolts, I regret to say for their perfect repair the canal must again be closed for a considerable period.

2. I believe in my anxiety to open as soon as possible I gave insufficient time for the cement to harden, and hence the damage done; the canal however is in working condition, and boats can be passed up and down at present, although there is a loss of water. Owing to the fact of the transfer being so near, I await further instructions before again stopping the traffic, and am preparing an estimate of the expenditure required to repair damages, which, I presume, must be submitted to the Madras Government.

Copy forwarded to Secretary to Government, Fort St. George, Public Works Department, for disposal, the 1st Barrier Division works having now been transferred from Central Provinces to the Madras Government.

(Signed) F. J. JOHNSTON,
Asstt. Secy. to Chief Commissioner, C. P., P. W. D.

Copy of Letter No. 155 of Domaguidim 26/3/5
From Ex: Engineer 1st Barrier En. To Chief
Engineer C. E.

I have the honor to report
that the repairs of Canal were completed on
21st and boats passed through on 21st March
on 26th this day the pressure of water forced
out the cement from some of the joints
between the stones last put in and although
these were fastened down with clamps and
iron bolts, I regret to say for their perfect repair
the Canal must again be closed for a consid-
erable period.

I believe in my anxiety to open as
soon as possible, I gave insufficient time for
the cement to harden, and hence the damage
done. The Canal however is in working con-
dition and boats can be passed up and down
at present although there is a loss of water.
Owing to the fact of the transfer being some
I await further instructions before
