*Proceedings of the Madras Government, Public Works Department,
25th April 1876.*

No. 351. Read the following letter from Captain L. CONWAY-GORDON, R.E., Examiner of Public Works Accounts, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 12th April 1876, No. 19 W. :—

I HAVE the honor to call the attention of Government to the remarks made on the monthly Appropriation Returns submitted by this office, to the effect that the Appropriation Returns from the District Offices are not received in time to be included in the Examiner's Return.

2. The Appropriation Return is due from the Examiner on the 10th of each month, and the fact that the District Returns are received too late to be included in the General Return submitted to Government detracts so much from the usefulness of this return that I would suggest that the District Engineers be called upon to send in their Appropriation Returns more punctually.

3. The District Appropriation Return being merely a list of the appropriations made during the month, which can be written up from day to day as funds are appropriated, there is not the slightest reason why the Appropriation Return should not be submitted from each District Office, at the latest, on the 2nd of each month.

No. 352. ORDER THEREON, 25th April 1876, No. 1,034.

ACCOUNT, No. 21.

COMMUNICATED to District Engineers who will in future pay stricter attention to the punctual despatch of their monthly Appropriation Returns to the Examiner. In the event of future returns not being ready by the 2nd of each month, the cause of delay should be explained to the Examiner, who will submit the explanation to Government with the General Return.

Sir

I have the honor to call the attention of Government to the remarks made on the monthly appropriation returns submitted by this office, to the effect that the appropriation returns from the District offices are not received in time to be included in the Examiner's return.

2. The appropriation return is due from the Examiner on the 10th of each month, and the fact that the District returns are received too late to be included in the general return submitted to Government detracts so much from

from the usefulness of this return
that I would suggest that the
District Engineers be called upon
to send in their appropriation
returns more punctually.

3. The District appropriation
return being merely a list of
the appropriations made during
the month, which can be written
up from day to day as funds are
appropriated, there is not the
slightest reason why the appropri-
ation return should not be sub-
mitted from each District Office,
at the latest, on the 2^d of each month.
