Read the following :—

No. 16.

No. 360. MEMORANDUM.

THE Examiner, Railway Accounts, has submitted, for the orders of Government, a requisition for funds for the first three months of the current financial year, from the Chief Engineer and Manager of the Madras Irrigation Company's Canal.

2. In their notice of the Regular Estimate, No. 481, dated 22nd February 1876, the Government deferred passing orders on the scale of establishment to be maintained, pending a report from the Manager as to the reductions he could at once effect, the measures the Board of Directors were prepared to take, and the receipt of a revised estimate for the current year, and, in the absence of such orders, it is necessary that the periodical requisitions for funds should be in each instance laid before them.

3. The Manager requests a credit for Rupees 31,500 made up as follows for outlay in April, May, and June :—

| | Monthly rate. | Rs. |
|---|---|---|
| Conservancy Staff ... ... ... ... ... | 4,000 × 3 | 12,000 |
| Revenue Works ... ... ... ... ... | 2,500 × 3 | 7,500 |
| Proportion of General Management ... ... | 4,000 × 3 | 12,000 |

The regular estimate provided for an outlay on conservancy staff at a monthly rate of Rupees 6,953, but as explained already in a note from the undersigned which has been before Government, the death of one Engineer and the resignation of another has reduced the outlay under establishment, and this has been duly considered in framing the present requisition. It is accordingly recommended for sanction.

Sir,

In reference to G. O. No. 481, of 22nd February last, I have the honour to enclose Copy of a letter No. 341, of 18th instant from the Examiner of Railway and Irrigation Accounts, from which he says that he is unable to pass any expenditure on the Budget Estimate for 1876-77 without further instructions from Government.

Immediately on receipt of the G. O. I sent a Copy of it to the Secretary, with my letter No. 7, of 3rd instant; and on the 10th I also sent the Secretary a letter from the Examiner containing a proposal for reducing the expense of the accounting and auditing departments. In the meantime the executive of management and of high Chief Engineers reduced, by the death of Mr. Dodson, and the departure of Mr. Crawford, very nearly to that proposed by Major A. de C. Scott in his letter printed with the G. O. Under the circumstances, I hope the Government will not object to allow Mr. R. G. Macdonald to pass my indent for funds for the first Quarter of 1876-77 against the Budget Estimates of that year, in order to give time for the Board

consider the proposed modifications of
Tariff.
