Specification of the works to be executed  
in erecting quarters for the Deputy Post  
Master at Poodorvil.

Amount of Estimate Rs 860---.

The measurements of the bricks & work and the scantling of the timbers are entered on the Plan and in the detailed estimates.

The residence is to stand on the west of the Office on a waste piece of ground belonging to the Govt.

The earth is to be excavated to the depth of 4 feet and the bottom levelled.  $\frac{1}{2}$  feet of concrete is to be laid on and well beaten down. The concrete is to be of broken bricks or latite nodules and  $\frac{1}{4}$  of mortar of good quality well incorporated.

The foundation on concrete is to be 4 bricks thick. The basement 3 bricks and the walls above and around the flanks 2 bricks thick. English bond is to be worked throughout and quarter bond in the angles. The arches are to have two inches curve.

The floors are to be laid with bricks on edge and its surface plastered with two coats, well pulked down.

The walls inside and out are to receive a coat of plaster, lincoln-floated down, and white washed.

The roof is to consist of teak-wood rafters, beams, tie flat and pan tiles and mortar-lime and ridges.

Attic heads are to be formed in front of the doorway to give headway.

Steps are to be provided, as per plan.

The materials are to be good and the workmanship of a fair quality.

On completion of the work all surplus is to be returned.
