Public Works DEPARTMENT

G.O. No.	/ 351	(W)	Press
B.P. No.			Mis.
Dated	30.5.		1876.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
30th May 1876.*

Read the following papers :—

No. 516. From T. D. HARRIS, Esq., Officiating District Engineer, Malabar, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Calicut, 25th October 1875, No. 108.

WITH reference to G.O., No. 65, dated 9th August 1875, I have the honor to forward a sketch plan showing the proposed site for the Sub-Registrar's office at Munjerry.

2. The best place to build the proposed rooms would be in the rear of the Cutcherry and parallel with the record-room, but there is no space to do this on account of the edge of the hill, hence the site proposed is the best available.

3. The cutcherry is built after the standard plan, viz., first class.

No. 517. From the same Officer, dated 20th January 1876, No. 166.

No. 517-A. From the same Officer, dated Calicut, 8th May 1876, No. 32.

As requested in your memorandum, No. 192, dated 28th January last, I have the honor to forward, as therein directed, a revised plan and estimate for providing accommodation for the Sub-Registrar in the Taluq Cutcherry at Munjerry.

No. 518. ORDER THEREON, 30th May 1876, No. 1,351.

CIVIL WORKS, No. 45.

(a) *Heads of Service*.—Provincial.
Fund.—Ordinary.
Class.—Original Works.
Main-head.—Civil Buildings.
Sub-head.—B Revenue Department—ii Taluq Cutcheries.
Name of Work.—Adding a room with verandah to the Taluq Cutcherry at Munjerry for a Sub-Registrar.
Amount.—Rupees 1,530.
To be carried out by the Public Works Department.

HIS GRACE the Governor in Council sanctions the plan and estimate of Rupees 1,530 for constructing an additional room, with verandahs, to the Taluq Cutcherry of Munjerry for the accommodation of the Sub-Registrar.

2. This sanction has been registered as Provincial No. 51 W. of 1876-77.

(True Extract.)

Proceedings of the Madras Government, Judicial Department.

20th May 1871.

Read the following papers:—

No. 73. From the Registrar-General of Assurances, to the Chief Secretary to Government, Fort St. George, dated Madras, 16th March 1871, No. 22.

During my recent tours through the Tamil Districts, I had opportunities of seeing many of the new Taluq Cutcherries which have been erected or which are in course of erection. I observed that no provision was made in any of them for the Sub-Registrars and their Establishments, and I understand that the Standard Plans do not contemplate any such provision.

2. The want of proper accommodation is already felt at the stations to which Special Sub-Registrars have been appointed, but at present there are only forty offices of that class. In the great majority of cases, the Tahsildar or Sub-Magistrate is himself the Sub-Registrar; a single almirah holds the records and a single Goomastah does all the work. In such cases, no great inconvenience is, of course, experienced at present, except in some of the old Cutcherries; but, in process of time, special officers will be appointed to all these stations, and room will be required for five or six Goomastahs and several almirahs.

3. The erection of separate buildings for the Sub-Registrars is, I think, entirely out of the question. The cost would necessarily be much greater, and the registration records would be far safer in the Taluq Cutcherry than they would be in a separate building.

4. I would, therefore, recommend that whenever a new Cutcherry is built for a Tahsildar or Sub-Magistrate, two rooms be provided in it for the Sub-Registrar. One would be for the accommodation of himself and persons bringing instruments for registration; the other would be for his Goomastahs and records. The additional cost of these rooms would, of course, be debited to the Registration Fund. The amount standing at the credit of this Fund is at present Rupees 1,84,163-15-2. This will go some way; but, as the number of offices to be provided for is 286, it seems very desirable that the cost should be spread over a number of years.

Referred to the Government Architect, who will indicate how the addition of a Sub-Registrar's Office can most conveniently be made in the standard design.

FORT SAINT GEORGE,
20th March 1871.

(Signed) R. S. ELLIS,
Chief Secretary.

No. 73-A. From the Consulting Architect to Government, to the Chief Secretary to Government, Fort St. George, dated Madras, 27th March 1871, No. 142.

I have the honour to return the letter of the Registrar-General on the subject of adding rooms to the new Taluq Cutcherries for the accommodation of the District Registrars.

2. The new rooms may be built either at A or B, but the latter would be preferable if the site admits of it. I beg to submit a tracing showing the rooms I would propose to add. The additional cost would be about Rupees 1,700 (one thousand seven hundred).

Offg. Secy. to Govt. Madras

*Proceedings of the Madras Government, Judicial Department,
17th May 1871.*

Referred to the Registrar-General of Assurances, for report as to whether a single well-sized room will not be sufficient.

FORT SAINT GEORGE,
21st April 1871.

(Signed) W. HUDLESTON,
Acting Chief Secretary.

No. 74. From the Registrar-General of Assurances, to the Chief Secretary to Government, Fort St. George, dated Madras, 25th April 1871, No. 43.

I have the honour, with reference to your endorsement of the 21st instant, to state that one room will not be sufficient in the more important Sub-Registry Offices. Mr. Ferrand, the Registrar of Madras, finds three rooms hardly enough, and, in many of the Mofussil Offices, there is nearly as much registration as there is at the Presidency. About four or five persons attend in connexion with each registration, which gives a daily attendance of about fifty persons. If the Clerks are in the same room with the Sub-Registrar, their attention is liable to be distracted by the groups going in and out and by persons going up to ask them questions about their instruments. It is also desirable, for other reasons, that the Goomastahs should have no dealings with the public, which a Sub-Registrar might find it difficult to prevent in a crowded room. In the smaller Special Sub-Registry Offices one room would suffice for the present; but provision should, I think, be made for adding another when required. In the Official Sub-Registry Offices no rooms need be built as long as the Office remains under the charge of the Tahsildar or Sub-Magistrate.

No. 75. ORDER THEREON, 20th May 1871, No. 680.

Under the explanation afforded by the Registrar-General of Assurances in his letter, dated the 25th April 1871, No. 43, His Excellency the Governor in Council resolves to sanction the addition of one or two rooms, according to the requirements of each station, for the Registration Department, in the design for First Class Taluq Cutcheries, as shown in the accompanying plan, either at A or B, with reference to the space available on the sites of the several Cutcheries.

2. The plan will be forwarded to the Public Works Department with a view to the several Superintending Engineers being called upon to include, in their revised estimates of the cost of Taluq Cutcheries and Subsidiary Jails, the probable cost of one or two additional rooms, as may be required for conducting the work of the Sub-Registration Offices.

3. No additional rooms will be required at the Cutcheries where the Tahsildar is entrusted with the duties of a Sub-Registrar.

(True Extract.)

W. HUDLESTON,
Acting Chief Secretary.

To the Public Works Department, with plan.

*To Superint^d Engineers with Plan
of Sub-Registration Office according to design.*

For Mr. Kennedy. — do —

Initiated by S. C. Pendleton

Proceedings of the Madras Government, Public Works Department,
8th October 1874.

Read the following Proceedings of the Madras Government in the Judicial Department, dated 19th September 1874, No. 1,746:—

Read the following letter from the Hon. V. RAMIENGAR, c.s.i., Acting Inspector-General of Registration, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Madras, 11th September 1874, No. 129.

In submitting, for the information of Government, the accompanying communication (with enclosures) from the Registrar of Kurnool, reporting that no provision is being made for the accommodation of the office of the Sub-Registrar of Koilguntla in the new Taluq Cutcherry now building at that station, I have the honor to request that the necessary orders may be issued for including an additional room for the use of the Registration Department. It will be seen, the District Engineer states, that the standard plan does not provide for such accommodation notwithstanding G. O., 20th May 1871, No. 680.

2. The Office at Koilguntla is in charge of a Special Sub-Registrar.

THE Governor in Council approves of the addition of a room for the Sub-Registrar in the new Taluq Cutcherry at Koilguntla. Orders on the subject will be issued in the Public Works Department.

(True Extract.)

(Signed) J. STURROCK,
Acting Under Secretary,
for Acting Chief Secretary.

ORDER THEREON, 8th October 1874, No. 47.

COMMUNICATED to all District Engineers, whose attention is called to G. O., No. 680 of 20th May 1871, Judicial Department, communicated with order in the Public Works Department, No. 59 of 8th June.

(True Extract.)

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government.

To District Engineers.
To the Executive Engineer, Wynad.

To The Under Secretary to Government,
P. H. Department,
Madras

Sir,

In reply to your No. 807 dated
24th Oct. 1895, I have the honor to forward
a sketch of ground in rear of Post Office
attached to the Taluk Butchery at Mayyazhy
and to state that owing to the fall of
ground, the front basement of the ex-
tension will require to be raised on an
average height of 4 1/2 feet; and there
will be a latrine at present in use, 12
feet from the end of the proposed room
which I consider objectionable. but
will leave the subject for your kind
advice.

I have the honor to be
Sir,
Your most obedt. Servant

Memorandum

With reference to letter from the District Engineer Malabar No. 103 dated 25th October 1895, it is observed that if the room built in the Cutchery for a Post Office (according to the standard Plans) is not required under the orders of Government 10th November 1894 No. 3 for that purpose, it may be allotted to the District Registrar in which case only an additional room is necessary. The District Engineer is to ascertain and report whether the ground with a view of one room being added in extension of the Post Office.
