Dated	31.5.		1876.

Not to be folded or roughly handled

8

*Proceedings of the Madras Government, Public Works Department,
30th May 1876.*

Read the following letters :—

No. 521. From Lieutenant-Colonel R. F. OAKES, R.E., Superintending Engineer, Tanjore, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Tanjore, 22nd April 1876, No. 665.

I HAVE the honor to inform you that the Firka Cutcherry at Arantangy was condemned in 1871 as being beyond repair, and the site of the old building being very limited in area and incapable of accommodating the out-buildings sanctioned in G.O., No. 3,370, dated 26th October 1868, a new site was selected and approved by the Collector, and an estimate of Rupees 7,000 was submitted for the new Cutcherry in August 1873 on the standard plan of a third-class Cutcherry sanctioned on 15th March

1871, provision for a Post Office and Registrar's Office, both of which are required at Arantangy, having been made in rear of the court-room.

2. After considerable correspondence between this office and that of the Inspecting Engineer for Buildings, a revised estimate of Rupees 7,710 was submitted in February 1874, when a correspondence again commenced between the above-mentioned offices, and eventually this office was informed that a revised standard design for

second-class Taluq Cutcherry was under preparation by the Civil Architect. This apparently is the plan sanctioned in G.O., No. 642 of 13th March 1876, but it provides for neither a Post Office nor a Registrar's Office.

3. I have the honor to request that I may be informed whether there is any prospect of a third-class Taluq Cutcherry standard design being sanctioned, or whether a second-class Cutcherry may be provided at Arantangy; rooms for the Post Office and Registrar's Office being added in rear of the Sub-Magistrate's Court.

4. At the Collector's request an estimate of Rupees 590 has just been prepared for repairing the existing building, the stock value of which in 1860 was Rs. 286-4-6; the walls are of mud, and the building is in such bad order that it really is not worth repairing; as, however, there is no other building which can be used as a Cutcherry, it must be repaired so as to make it last till the new Cutcherry is built.

No. 521A. From Major P. MONTGOMERIE, R.E., Officiating Consulting Architect to Government, to Colonel W. T. F. FAREWELL, Officiating Deputy Chief Engineer, Public Works Department, dated Chepauk, 8th May 1876, No. 459.

In reply to your memorandum No. T/130, dated 3rd instant, I have the honor to state that the revised plan for third-class Taluq Cutcheries is not being prepared in this office, but will be put in hand if required.

No. 522. ORDER THEREON, 30th May 1876, No. 1,353.

CIVIL WORKS, No. 46.

THE Officiating Consulting Architect will immediately put in hand the preparation of a revised standard design for a third-class Taluq Cutcherry; on the issue of which the District Engineer, Tanjore, will estimate for the building required at Arantangy.

*Proceedings of the Madras Government, Public Works Department,
30th May 1876.*

2. Major Montgomerie is requested to submit a list of all calls for designs that remain uncomplished with.

Memo

The Consulting Architect is re-
quested to be so good as to state
whether a revised plan for 3^d Class
Taluk Cutcheries is now being
prepared in his Office.

/s/ R. J. Strenell Coll

3^d May, 1876 — Offs. by Chief Engr.
STW

To
The Consulting Architect

2. But it is not understood why the Consulting Architect has not revised each Clasp of Cutcherry as instructed.

He is requested to submit a list of all calls for Designs that remain uncompleted with.

No. 665

Superintending Engineer's Office
Tanjore 22 April 1876

From

Agent Coll. R. F. Oakes Esq.

Superintending Engineer Tanjore

To

Major General G. W. Walker Esq.
Secretary to Government P.W.D.

Sir,

I have the honor to inform you that the Firka Cutcherry at Arantangy was condemned in 1871 as being beyond repair and the site of the old Building being very limited in area and incapable of accommodating the out Buildings sanctioned in G.O. No. 3370 dated 26th October 1868 a new site was selected and approved by the Collector and an estimate of Rs. 7000 was submitted for the new Cutcherry in August 1873 on the Standard Plan of a 3rd class Cutcherry sanctioned on 15th March 1871, provision for a Post Office and Registrar's Office, both of which are required

at Arantangy, having been made
in rear of the Court Room.

After considerable correspondence
between this Office and that of
the Inspecting Engineer for Buildings
a revised Estimate of Rs. 7710 was
submitted in February 1894 when
a correspondence again commenced
between the above mentioned
Offices and eventually this Office
was informed that a revised
standard design for a 2nd Class
Taluk Cutcherry was under preparation
by the Civil Architect. This apparently
is the plan sanctioned in G.O. No. 642
of 13 March 1876 but it provides
for neither a post Office or a Registrar's
Office.

I have the honor to request
that I may be informed whether
there is any prospect of a 3rd class
Taluk Cutcherry standard design
being sanctioned or whether a
2nd class Cutcherry may be provided
at Arantangy Rooms for the post
Office and Registrar's Office.

bring added in rear of the
Magistrates Court.

At the Collector's request
an estimate of Rs. 590 has just
been prepared for repairing
the existing building, the stock
value of which in 1860 was Rs. 286-4-6
the walls are of mud and the
building is in such bad order
that it really is not worth re-
pairing; as however there is no
other building which can be
used as a Cutcherry it must
be repaired so as to make it
last till the new Cutcherry is built.

I have the honor to be
Sir

Your most obedient servant
