Public Works

DEPARTMENT

G.O. No.	15-8	(W)	Press
B.P. No.			Mis.
Dated	20-6-	1876.	

Not to be folded or roughly handled

Read the following papers :—

No. 326. From T. D. HARRIS, Esq., Officiating District Engineer, Malabar, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Calicut, 5th August 1875, No. 74.

In obedience to your instructions conveyed in G.O., No. 1,720, dated 18th June last, I have the honor to forward an estimate, amounting to Rupees 10,570, for constructing a Munsif's Court at Tellicherry, prepared in accordance with the standard plan received with G.O., No. 1,293, dated 7th May last, trusting the same may be found satisfactory, and the plan and estimate returned after approval for execution of the work.

No. 327. From T. D. HARRIS, Esq., Officiating District Engineer, Malabar, to Colonel W. T. F. FAREWELL, Officiating Deputy Chief Engineer, Public Works Department, dated Luckadie, 18th February 1876, No. 188.

With reference to your memorandum, No. 110, dated 18th ultimo, I have the honor to forward the papers marginally noted, and to state that the specification has been duly corrected as per instructions contained in the memorandum above quoted. Trusting that it will be found satisfactory.

1 Estimate for constructing a District Munsif's Court at Tellicherry, Rupees 12,540.	
1 Abstract estimate of	do.
1 Plan for	do.
1 Specification for	do.

No. 327-A. From T. D. HARRIS, Esq., Officiating District Engineer, Malabar, to Colonel W. T. F. FAREWELL, Officiating Deputy Chief Engineer, Public Works Department, dated Calicut, 18th May 1876, No. 39.

With reference to your memorandum, No. 651, dated 6th April last, I have the honor to forward detailed and abstract estimates* and a site plan for constructing a Munsif's Court at Tellicherry, as per standard plan received with G.O., No. 1,293, dated 7th May 1875.

* Rupees 11,000.

2. As regards the great excesses in quantity over the standard estimate entered in the original estimate for constructing the Court under heads of Excavations, Concrete, and Brick Works, I have the honor to state that it was simply an error, but the present estimate has been carefully revised, with very slight excesses, under the above heads, and as for brick work the difference is due to the breadth of the foundation owing to the usual size of laterite stone being employed and concrete and excavations; the present difference is very trifling; indeed the former is $85\frac{3}{4}$ cubic feet, and the latter 337 cubic feet.

3. As regards excess of rates, I beg to append what Lieutenant Dobson states that—

1. "I have no data for doors with iron bars in my Range Rate Schedule. I do not think the rate is too high if teak is employed for the frames; the difference is only Rupees 5, and is not much. Correct data will be obtained when the estimate is worked out and will be recorded."

*Proceedings of the Madras Government, Public Works Department,
20th June 1876. No. 1,528.*

2. "The rate for Carson's paint, at Rupees 5-8-0 for three coats, is not too high at all; the rate formerly entered in the schedule was approximate; the rate Rupees 5-8-0 is obtained from actual work."
3. "The rate for plastering was the old usual rate for plastering taken from old estimate. I have now reduced it to Rupees 2-8-0 which is not too much at Tellicherry, where labor is very valuable. I have reduced the cutch stone to forty-five. I find from old records it varied from forty to fifty, and I took fifty. I can work cheaper in the cantonment, but in the taluqs the superintendence not being so good, I must increase rates slightly."
4. "Asphalting Rupees 20 is the rate. I only just managed to asphalte with that rate in the cantonment with asphalte at Rupees 50 a ton. The price of asphalte has been increased to 52 Rupees odd, but I have kept the same rate intending to try hard to keep within it."
5. "Sundries and Superintendence at $7\frac{1}{2}$ per cent. is not too high; building the work shed is expensive, bamboos being very expensive at Tellicherry; another thing is that the budget came in April; the work begins; materials are collected in the shed, and work stops for four months in monsoon, but a watchman has to be kept all the time, and all this adds to the expense. I have therefore kept the $7\frac{1}{2}$ per cent. I find in many estimates that 10 percent. was the usual rate for sundries and superintendence."
4. As the District Judge of North Malabar wishes to have the Munsif's Court built within the compound of his own Court, and as there is space in it, the counter-signature of the Collector to the site plan is not necessary.

No. 328. ORDER THEREON, 20th June 1876, No. 1,528.

CIVIL WORKS, No. 49.

(a) Heads of Service.—Provincial.
Fund.—Ordinary.
Class.—Original Works.
Main-head.—Civil Buildings.
Sub-head.—A, Judicial Department.
Section i.—Court-houses.
Name of Work.—Munsif's Court-house at Tellicherry.
Amount.—Rupees 10,960.
To be carried out by the Public Works Department.

HIS GRACE the Governor in Council sanctions the revised estimate of Rs. 10,960 for constructing a Munsif's Court-house at Tellicherry in accordance with the design of the revised standard plan.

2. Mr. Harris' attention is called to the manner in which the papers have been dealt with by him. In his letter of the

18th February Mr. Harris supplied a revised estimate of Rupees 12,540. And in that of the 18th of May the amount was altered to Rupees 11,000. In explanation of the difference Mr. Harris contented himself with observing that it was "simply an error." Repeated references have had to be made, and much time and labor have been wasted in eliciting such information as was necessary to lay the project before Government in a complete form. Inattention on the part of Mr. Harris to necessary details in connection with plans and estimates has already been commented on in Government Proceedings,* and he is now warned that in his new district he will be held personally responsible for similar errors not detected in his office.

*Proceedings of the Madras Government, Public Works Department,
20th June 1876. No. 1,528.*

3. There are no funds at present available for the work.
4. This sanction has been registered as Provincial No. 73 W. of 1876-77.

The Deputy Chief Engineer
 Madras

No 1000...
 With reference to your letter No 855
 dated 6th April last, in which the hon. Secy.
 forwarded detailed and sketch estimates
 and a site plan for constructing a dam at
 Cant at Tellicherry as per Standard plan
 received with G. O. No 1293 dated
 7th May 1876.

As regards the first estimate
 in quantity in the Standard estimate
 entered in the original estimate for
 constructing the Cant under heads of
 excavations, concrete and brick work
 have the honor to state that the same
 simply an error. But the present estimate
 has been carefully revised with very
 slight increase under the above heads
 and for brick work the difference

is due to the breadth of the foundation
owing to the usual size of latite stone
being employed and concrete and
excavations the present difference is very
little indeed the former is 85 3/4 cubic
feet and the latter 33 1/2 cubic feet.

3. As regards excess of rates I beg
to append what Lieut. Dobson states that.

1. I have no data for doors
with iron bars in my rate schedule.
I do not think the rate is too high if
khat is employed for the frames. The
difference is only rupees 5 and is not
much. Correct data will be obtained
when the estimate is worked out and
will be recorded.

2. The rate for baron's paint
at 5/8 for 3 coats is not too high at all.
The rate formerly entered in the schedule
was approximate the rate 5/8 is the
time to finish actual work.

3. The rate for plastering was
the old usual rate for plastering taken
from old estimate. I have now reduced
it to 2/8 which is not too much at
all when good labor is employed.

4. I have reduced the cubic stone to 40
I find from old records it varied
from 40-50 and I took 50 I can
work

work cheaper in the Cantonment but in
the Salugs the Superintendence not being
so good I must increase rates slightly.
4. Asphalting Rupees 20 is the rate.
I only just managed to asphalt with
that rate in the Cantonment with
asphalte at Rupees 50 a ton. The price
of asphalte has been increased to 52 Rs
odd but I have kept the same rate in-
tending to try hard to keep within it.

5. Sundries and Superintendence
at 7 1/2 per cent is not too high. Building
the work shed is expensive; bamboos
being very expensive at Tellicherry. Another
thing is that the budget came in April
the work begins materials are collected
in the shed and work stops for 4 months
in monsoon, but a watchman has to
be kept all the time and all this adds to
the expense. I have therefore kept the 7 1/2
per cent. I find in many estimates
that 10 per cent was the usual rate
for Sundries and Superintendence.

6. As the District Judge of
North Malabar wishes to have the
Municipal Court built within the
compound of his own Court and
as there is space in it the Commissioner
of

P. W. 1876 Napp.

UNDER date the *20th June 1876*

READ the following:—

From

The Offg. District Engineer } *(H.C. N^o 74 of 5th Augt. 1875)*
Malabar

— do — do — *(N^o 188 of 18th Feb. 1876)*

— do — do — *(N^o 39 of 18th May 76)*

His Grace the Governor
in Council sanctions the
revised estimate of Rs 10960
for constructing a Municipals
Court-house at Tellicherry
in accordance with the design
of the revised standard plan.
2. Mr. Harris' attention
is called to the careful
manner in which the
papers have been dealt
with by him. In his letter
of

of the 18th February Mr.
Harris supplied a revised
estimate of Rs 12540. And
in that of the 18th of May
the amount was altered
to Rs 11000. In explanation
of the difference Mr. Harris
contented himself with
observing that it was "simply
an error". Repeated refer-
ences have had to be made
and much time and labor
have been wasted in eliciting
such information as
was necessary to lay the
project before Govt. in a
complete form. Inattention
on the part of Mr. Harris
to necessary details in
connection with plans and
Estimates has already been
commented on in Government
Proceedings

* No. 275 d/31st Jan'y 1876

Proceedings; and he is
now warned that in his
new District he will be
held personally respon-
sible for similar errors
not detected in his office.

3. There are no funds
at present available for
the work.

4. This sanction has
been registered as Provincial
No. 73 W of 1876-77.
