*Proceedings of the Madras Government, Public Works Department,
20th June 1876.*

Read the following letters —

No 421 From T. D HARRIS, Esq, Officiating District Engineer, Malabar, to Major-General G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Calicut, 26th April 1876, No 26

I HAVE the honor to forward, for sanction and allotment of funds, an estimate, amounting to Rupees 288, for annual repairs to the Post Office at Vythery.

The Budget Grant for 1876-77 under "Repairs to Postal Buildings" for this district, including Wynaad, is only Rupees 200, of which a sum of Rupees 26 has already been allotted for "monsoon repairs to the Post Office at Mallapuram for 1876-77," leaving a balance of Rupees 174

Against this balance I have to allot Rupees 40 for repairing the Post Office at Beypore, besides having to allot funds for repairing several other buildings for which estimates have not yet been received.

2 The estimate submitted herewith has received the approval of the Inspector of Post Offices, Calicut Division

No 422. From T. D. HARRIS, Esq Officiating District Engineer, Malabar, to Major-General G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Calicut, 3rd May 1876, No. 31.

In continuation of my letter, No. 26, dated 26th ultimo, I have the honor to forward, for sanction and allotment of funds, an estimate* for Rupees 40 for repairing the Post Office at Beypore, and to state that under the urgency of the case that monsoon is fast approaching, I have, in anticipation of sanction, authorized the Range Officer to carry out this work as well as that of repairing the Post Office at Vythery, the estimate† for which was submitted with my letter quoted above

2 It is very necessary that the proper up-keep of the buildings on this coast should be attended to at once to prevent larger outlay than that required at present.

No 423. From T. D HARRIS, Esq, Officiating District Engineer, Malabar, to Colonel W. T. F. FAREWELL, Deputy Chief Engineer, Department of Public Works, Madras, dated Calicut, 18th May 1876, No. 42.

In reply to your Memorandum, No 183-T, dated 10th instant, calling for further information as to the necessity of removing the old tiles from the Post Office at Vythery, I have the honor to state that the tiles have slipped off the building, and as they are to be replaced by a larger description, the Mangalore tiles will be substituted for this building, and all the good, but old, pan-tiles taken off will be utilized in repair of other buildings, and credit has been given for them in the estimate

No 424 From T. D HARRIS, Esq, Officiating District Engineer, Malabar, to Major-General G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Calicut, 22nd May 1876, No 48.

With reference to G O, No. 1,031, dated 24th ultimo, I have the honor to request that you will be good enough to appropriate Rupees 74 for annual repairs to

Proceedings of the Madras Government, Public Works Department,
20th June 1876.

the Post Office at Palghaut The estimate has been approved of by the Inspector of Post Offices, Calicut Division

I also request that you will be good enough to sanction the estimates for Rupees 288 and 40 for repairs to the Vythery and Beypore Post Offices, forwarded with my letters, Nos 26 and 31, dated 26th April and 3rd instant, respectively

No 425 ORDER THEREON, 20th June 1876, No 1,551

CIVIL WORKS, No 51.

THE following sums are allotted from the Budget grant for repairs of Postal Buildings, viz —

Mallapooram Post Office	RS
Beypore do	26
Palghaut do	40
	74

But provision under that head cannot be made for the work to Vythery Post Office, seeing that it does not consist of repairs properly so called, but of replacing serviceable tiles by others of a different pattern, being in fact a Minor New Work Mr Harris' attention has already been called by the Chief Engineer to the unsatisfactory manner in which his estimates for Minor Works and Repairs are sent up, and he is again informed that the Government lay great stress on attention being paid by District Engineers to the details of such papers

From
Messrs J. B. L. & Co
Calicut
To
The Dy Chief Insp
Calicut
Date 15th June 1876
No 20
No 423

Cir. 15.6.76
Desp 26 dt 22.5.76

On reference, recorded in O O No 1684 of 5 June, and
No 2107 of 24th July that estimate was withdrawn by
Mr Harris as not required, and an old estimate of
January 1873 was passed in the latter order, on the
supposition that, as apparently stated by Mr
Harris, it provided for all improvements then
thought necessary in the By Surgeon General's last
inspection and by himself. The items of
that

that estimate are as follows viz-

1. Improvements to solitary cells including Roof ventilation and Asphalting	223-4-5
2. Paving Drains round mens Lavatory	37-4-7
3. Other Improvement to mens Lavatory	16-8-0
4. Superintendence & Sundries	17-13-0
	<hr/> 330-0-0

being identical with Items 1, 2, 3, & 7 of the 1st estimate but omitting Items No 4, 5 & 6.

Mr Harris now submits an estimate for Rs 152 of which the following are the Items viz-

1. Drains for Rear of married Quarters	Rs 21-15-0
2. Asphalting inside of mens Lavatory	17-11-2
3. Superintendence & Sundries	10-5-10
	<hr/> 152-0-0

and he states that the drains have been suggested by the Medical Officer in charge, and that no repairs had been made for repairing the floor of the mens Lavatory because in January 1873 it was in good order.

The 2^d of the above items is for performance of work corresponding with that of Items No 5 and 6 of the 1st estimate, but at a cost of Rs 17-11-2, as against Rs 73-8-0 and presuming that it was intended to lay asphalt over cuttle stone, it does surprise the Chief Eng^r to find no allowance made for lifting up and utilizing the now useless valuable material. The District Engineer will be good as to explain the apparent anomaly, and will send at the same time a memo of all outlay.

outlay on the solitary cells, mens Lavatories and married Quarters at Chert, for the last 5 years. He will account at the same time for a sum in rate for Lavatories in Churnam for Drains from Rs 14 in March 1875, to Rs 15 in October, and state why Roof ventilation to the solitary cell approved in 1873 has been substituted for floor ventilation approved in 1875.
