No. 144. Read the following endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 6th July 1876, No. 86-W. :—

From J. H. LATHAM, Esq., Chief Engineer and Manager, Madras Irrigation and Canal Company, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Ootacamund, 22nd June 1876, No. 60.

I HAVE the honor to ask you to do me the favor to submit, for reconsideration by Government, the case of Mr. Dunphy, *vide* G.O., No. 686, of 17th March last. Major A. deC. Scott's remark was perhaps misunderstood, since an increase to Mr. Dunphy's pay leaves the charge of engineering establishment referred to in G.O., No. 476, of 22nd February 1876, decreased.

2. The increase sanctioned by the Board to Mr. Dunphy's salary was in consideration of his services before Mr. Dodson's death, during the two-and-a-half years he had served as Assistant Engineer. Since that time Mr. Dunphy has had charge of the Lower Division, and has worked hard and judiciously in that trying climate, and gives promise of being a very efficient officer. I am sure his services have been worth a higher salary, and I hope that Government will sanction a higher class of pay, *viz.*, Rupees 450 a-month for him from the date of Mr. Dodson's death, (subject to approval by the Directors), besides the Rupees 400 previously sanctioned by the Board.

SUBMITTED for the consideration of Government.

2. The objection taken in G.O., No. 686, of the 17th March 1876, to any increase of cost of establishment employed on the Madras Irrigation and Canal Company's Canal was unavoidable under the circumstances of the disproportion between this cost and the outlay on works on the one hand, and the working expenses and revenue on the other hand, and the undersigned cannot therefore recommend any increase of Mr. Dunphy's salary prior to the date of Mr. A. J. Dodson's death. Since that event Mr. Dunphy has, however, been called upon to undertake the charge of the Lower Division of the canal in which he was up to that time the Assistant, and the undersigned is of opinion that, as he has performed the duties to the satisfaction of the Chief Engineer and Manager, it will be only right to allow him a salary more in accordance with the duties he has to perform, and it is recommended therefore that the proposed increase of salary from Rupees 300 to Rs. 450 may be sanctioned from the date of Mr. Dodson's death, subject to the confirmation of the Board of Directors.

3. The salaries of the conservancy staff of Engineers in the Lower Division were—

	Rs.
Mr. Dodson's	800
„ Dunphy's	300
	1,100
And if Mr. Dunphy be paid	450
The decrease will still be	650

(Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.

Proceedings of the Madras Government, Public Works Department,
11th July 1876. No. 1,739.
