DEPARTMENT

G.O. No. 1746
B.P. No.Press
Mis.

Dated

11-7-1956

Not to be folded or roughly handled

Read the following letters:—

No. 146. From Major P. MONTGOMERIE, R.E., Officiating District Engineer, Presidency, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 12th June 1876, No. 1,357.

I HAVE the honor to submit, for sanction, an allotment of funds, plans and estimates for the two works named in the margin which have been approved of by the Surgeon-General, Indian Medical Department.

2 Plans.
2 Estimates.
2 Specifications.
Constructing dry-earth shed for General Hospital, Rupees 614.
Covering to the regulating tap of the Red Hills water-supply at General Hospital, Rupees 212.

2. The Surgeon-General states that the present temporary earth store-shed is unsightly, and consequently recommends its removal; and to construct a permanent shed in lieu.

3. The covering to the regulating tap of the Red Hills water-supply is required for protection from exposure to the weather.

No. 146-A. From Major P. MONTGOMERIE, R.E., Officiating District Engineer, Presidency, to Colonel W. T. F. FAREWELL, Officiating Deputy Chief Engineer, Public Works Department, dated Fort St. George, 3rd July 1876, No. 1,745.

WITH reference to your Memorandum, No. T/454, dated 26th June 1876, I have the honor to explain that when the plan for a dry-earth shed for the General Hospital was originally made, there was no partition in it. The Senior Medical

1 Specification Report.

Officer when sent to him for approval, returned it with a request that the shed might be divided into two parts, so as one part might be used for earth and the other for keeping tubs; and that a platform might be built outside for the purpose of washing the tubs. The Resident Surgeon informed the Range Officer that the space allowed for dry-earth is quite sufficient. The plan was approved by the Senior Medical Officer, and the Surgeon-General, Indian Medical Department, who would have pointed out that the shed is too small if it was so.

2. The plan and estimate are herewith returned.

Proceedings of the Madras Government, Public Works Department,
11th July 1876. No. 1,740.

No. 147. ORDER THEREON, 11th July 1876, No. 1,740.

CIVIL WORKS, No. 12.

(a) Heads of Service.—Provincial.
Fund.—Ordinary.
Class.—Original Works.
Main-head.—Civil Buildings.
Sub-head.—H. Medical Department.
Section.—I. Hospitals and Infirmarys.
Name of Works.—A Dry-earth shed and a Meter-house for the Red Hills water-supply at the General Hospital, Madras.
Amount.—Rupees 614 for Shed, No. 87-W.
" 212 " Meter-house, No. 88-W.
To be carried out by the Public Works Department.

* Rupees 614.
† " 212.

With the first letter recorded above, the District Engineer, Presidency, submits two estimates; one for a dry-earth shed* and the other for a meter† house for the Red Hills water-supply at the General Hospital, Madras.

2. It is seen from the plan that the existing Police Station will form one side of the dry-earth shed, and that another side will be conterminous with the compound wall. The shed is, at the suggestion of the Medical Officer, to be

divided into two distinct compartments by a partition in the middle, and is to be provided with a masonry platform outside for washing tubs on, to which water is to be conveyed by iron pipes from the hospital supply; the surplus water being carried away by a pot-tile drain laid in mortar and tarred.

3. The estimates are sanctioned for execution from the funds at the District Engineer's disposal under "Minor Works, Provincial."

4. The above sanction has been registered as Provincial Nos. 87 and 88-W of 1876-77.

(True Extract.)

(Signed) G. W. WALKER, Major-General, R.E.,
Secretary to Government.

To the Officiating District Engineer, Presidency.

From

THE DISTRICT ENGINEER,

To

PRESIDENCY,

THE Offg. Dy. Chief Engineer
Dep't Public Works.

Sir,
With reference to your Memo. No. 454, dated 26th June 1876, I have the honor to explain that when the plan for a Dry Earth Shed for the General Hospital was originally made, there was no partition in it. The Senior Medical Officer when sent to him for approval returned it with a request that the Shed might be divided into two parts - so as one part might be used for earth, and the other for keeping tubs, and that a platform might be built outside for the purpose of washing the tubs. The Resident Surgeon informed the Range Officer that the space allowed for dry earth is quite sufficient.
