G.O. No.	175	(Ry)	Press
B.P. No.			Mis.
Dated	24-1-		1876

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
24th January 1876.*

No. 376. Read the following endorsement of the Consulting Engineer for Railways, dated Madras, 15th January 1876, No 20.—

From R B ELWIN, Esq, Agent and Manager of the Madras Railway Company, to Lieutenant-Colonel J. H. M. SHAW-STEWART, R E, Consulting Engineer for Railways, dated Madras, 12th January 1876, No 35

As requested in your letter No. 1,257, of the 25th of November 1875, I have the honor to enclose you a further report*

* From Acting Chief Engineer, No. 35, dated 10th January 1876

upon the silicating process at the Central Station, Madras

From H R P. CARTER, Esq. for Acting Chief Engineer, to R B ELWIN, Esq, Agent and Manager of the Madras Railway Company, dated Madras, 10th January 1876, No 35.

CONSULTING Engineer's letter No 1,257 of the 25th November last.

In 1872, from January to March, the inside of the walls of the passenger-shed, as high as the springing of the arch of the windows, and the outside walls from the ground to the window sills were subjected to the silicating process

2 This was redone in 1874, when all the brick-work of the station-house and passenger-shed was silicated both inside and out

3 The brick-work of the whole is in a good state of preservation, only the portions below platform and floor level showing signs of deterioration, and this is to be accounted for by the fact that the walls so situated could only be silicated on the outside and were therefore exposed to damp from the inside.

SUBMITTED for the information of Government with reference to their Proceedings, No. 3,196, dated 8th November 1875.

(Signed) J. H. M. SHAW-STEWART, Lt-Col. R E,
Consulting Engineer for Railways.

No 377. ORDER THEREON, 24th January 1876, No. 175.

RAILWAY, No 32

ORDERED to be recorded
