No. 422. *Note by the Chief Engineer for Irrigation.*

A DAM across the Poigay in Tanjore having been undermined and destroyed, a design for its reconstruction was submitted by the Superintending Engineer, and after some modification of the arrangement was approved. The Examiner of Public Works Accounts has informed the District Engineer that the sanction of Government to the estimate is required. The design was submitted to this office in connection

with a circular requiring designs for works needing to be entirely reconstructed to be forwarded for approval, with explanation of the cause of failure of the old work, whenever the estimate might exceed the limits* of local sanction for

new works. In cases in which the limit for local sanction of repairs would not be exceeded, the sanction of Government would not be necessary; but in this case the revenue is reported to be Rupees 2,184, and the estimate being Rupees 3,400, such sanction is necessary. The estimate was headed Revenue, Extensions and Improvements, and these are classed as Original Works. The proper heading will be Revenue, Maintenance and Repairs.
