FOR ORDERS.

The sanction was perhaps somewhat
 irregular, but it seemed advisable
 to make the guardroom of
 connected with the Treasury safe at
 once. The Director was called on
 for explanation ~~and was at length~~
 satisfied as it was not clear whether
 there had been some omission in
 original construction - or why this ~~the~~
 extra precaution was needed.
 It was secretly not ~~was~~

Circulated for
 orders.

It is remarked that
 the building is on a standard
 plan, and if these additions
 are required for one they
 are required for all similar
 buildings.

explained - The artist

I do not understand the
Security of the iron door
in wooden frame - The
door is a very strong one
The price very slight!
Further explanation should

apparently equally
