Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
21st August 1876. *No.* 2,200.

No. 482. Read the following letter from W. HUGHES, Esq, Assistant Engineer in charge of District Engineer's Office, to Major-General G. W. WALKER, R E, Chief Engineer, Public Works Department, dated Palamcottah, 1st August 1876, No 67 —

SEVERAL Overseers in this district are anxious to obtain copies of the Madras Civil Engineering College Text-book No X, but cannot well afford the price Rupees 12-8-0. I have the honor to request you will, if there be no objection, be good enough to move Government to have copies of the work supplied to such Overseers as require them, at a reduced rate say half price, or, if this cannot be done, that you will permit them to pay in three monthly instalments, which might be deducted from their salaries

No 483 ORDER THEREON, 21st August 1876, No 2,200.

ACCOUNT, No 36-A.

THE Government are not prepared to consider the question of supplying the Civil Engineering College Text-book, "Elementary Civil Engineering," to Overseers of the Public Works Department at a reduced rate, but as doubtless it will be advantageous that so excellent a book of reference should be in the hands of every Overseer, His Excellency in Council will not object to copies of the work being supplied to such Overseers as may apply for them, the cost being recovered by the Examiner of Public Works Accounts in three, four, or six monthly instalments, according to the grade of the Overseer.

(True Extract.)
