*Proceedings of the Madras Government, Public Works Department,
28th January 1876.*

No. 481. Read the following letter from Major J BEATTY, R E, District Engineer, Godavery, to Major-General G W WALKER, R E, Secretary to Government, Public Works Department, dated Dowlaishweram, 17th January 1876, No. 3,060 —

With reference to the latter part of paragraph 1 of G O, No. 3,294, of the 17th November 1875, I have the honor to report for your information that the sundries allowed in the estimate for the southern groyne work at Cocanada will probably be sufficient to cover the cost of bridged openings to allow the drainage to flow off the Jugganaikpuram flats. The abutments may be of rubble masonry in mortar, and the bridges timber framed. Besides the openings already allowed three more of 10 feet wide will be required, and probably prove sufficient for all purposes.

No. 482. ORDER THEREON, 28th January 1876, No. 223.

CIVIL WORKS, No. 28-A

RECORDED, and communicated to the Marine Department. The District Engineer will provide the Master Attendant,

Cocanada, with plans of the three bridged openings needed to allow of drainage from the Jugganaikpuram flats, which are to be constructed out of the allowances for sundries.

MADRAS

SIR,

With reference to the latter part of para 1 of G.O. No 3294 of the 17th November 1875, I have the honor to report for your information that the sundries allowed in the estimate for the Southern groynes work at Cocanada will probably be sufficient to cover the cost of bridged openings to allow the drainage to flow off the Ing-ganaikpuram flats. The abutments may be of rubble masonry in mortar, and the bridges timber framed. Besides the openings already allowed 3 more of 10' wide will be required and probably prove sufficient for all purposes.

I have the honor to be,

Sir,

Your most obedient st

Yours obediently,
Captain R.
Executive Engineer
for District Engineer Godavery
about on tour

Reports that landies
allowed in the estimate for
the Southern Province
at Coarada will probably
be sufficient to cover the
cost of bridged openings
to allow the drainage to flow
off the Sagaraiapuram
flats into certain backlanes.
