*Proceedings of the Madras Government, Public Works Department,
23th January 1876.*

No. 483. Read the following endorsement of the Chief Secretary to Government,
dated 21st January 1876, No 94.—

From the Venerable C R DRURY, Archdeacon of Madras, to the Honorable
W. HUDLESTON, Chief Secretary to Government, Fort St George,
dated Madras, 20th January 1876, No 372

I HAVE the honor to submit, for the sanction of Government, a plan and estimate
amounting to Rupees 236 for ornamenting the belfry now under construction for the
Garrison Church at Bellary

2 Government sanctioned a cost of Rupees 240 for the construction of a
belfry, but this application is for permis-
sion to have an improved plan, which
will cost Rupees 236 additional

3 The Officiating District Engineer in his letter to me, which I also forward
to Government, states that if the belfry is constructed according to the original
plan it will be an eye-sore at the station.

From W B LEGGATT, Esq, AICE, Officiating District Engineer, Bellary, to the Venerable
C R DRURY, Archdeacon of Madras, dated Bellary, 15th January 1876, No 2,527

I HAVE the honor to forward, for your approval and countersignature, a plan and estimate
of Rupees 236, accompanied by a specification
report, for ornamenting the belfry now under
construction for the Garrison Church at Bellary

1 Copy of letter
1 Plan
1 Estimate
1 Specification Report

2 The construction of the belfry at a cost of Rupees 240 was sanctioned in G O,
No 973, dated 17th April 1875, in the Public Works Department, but as it will be bare of all
ornamentation if completed as now sanctioned, and will therefore be an eye-sore in the station,
I have framed the present estimate with the concurrence of the General commanding the station

• Dated 5th January 1876

The Garrison Chaplain at Bellary has also
approved of the proposed work, *vide* copy of
his letter* enclosed

3 In the event of the work being sanctioned it will, if possible, be carried out as designed
now, but as there appears to be some doubt whether the capitals can be done here as shown in
the plan, they will probably be put up quite plain, but surmounted by the crosses as shown
in the plan

TRANSFERRED to the Public Works Department for disposal

(Signed) W HUDLESTON,
Chief Secretary

Major-General, R E,
Secretary to Government

To the Ecclesiastical Department
" District Engineer, Bellary

Specification Report to accompany the
Estimate for proposed improvements to the
Belfry now in course of construction for the
Harrison Church at Bellary -

It is proposed to place on the present
uprights ornamental pinnacles of cut stone,
surmounted by cast iron crosses, and to
surround the belfry with iron chains attached
to standards fixed in cut stone pedestals, as
shown in the plan. The pinnacles will be
fixed to the uprights by two iron pins 6 inches
long and 1 inch diameter, let 3 inches into
the base of pinnacle, and 3 inches into the
top of the upright, holes being bored in the
stones for that purpose, and fixed with molten
lead, the iron standards will also be fixed
with lead into holes drilled in the top of pedes-
tal stones. These stones 3' x 9" x 9" will be chiseled
dressed, and fixed in a pyramid of concrete,
as per plan -

The ornamental caps to pillars, to be
finished in a workmanlike manner, subject
to the approval of the Range Officer -

From The Chaplain of Bellamy

To The District Engineer Bellamy

Sir

I have the honor to acknowledge the receipt of your letter of December 28th with plans for the new Bellamy at the Garrison Church. Plans are herewith returned.

I think the alterations proposed would be a great improvement, and after the Engineer's general approval of them, I see no reason why the designs should not be carried out.

I have the honor to be

Sr
Yours obed^t Servant.
