*Proceedings of the Madras Government, Public Works Department,
25th August 1876. No. 2,255.*

Read the following papers :—

No. 584. From Major H. R. MEAD, R.E., District Engineer, South Arcot, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Camp at Cuddalore, 9th August 1876, No. 85.

WITH reference to G.O., No. 1,879, of the 25th July 1876, paragraph 2, I have the honor to submit, for the sanction of Government, the estimate for Rupees 16,600, including sundries, &c., for clearing the Pelandorai Anicut Main Channel. I regret that I made the mistake in thinking that the Local authorities could sanction it.

2. The estimate has been made from sections of the channel taken every 220 yards by Mr. Maclean. As I thought the estimate had not to go to Government, I did not have the sections copied, and, as the originals are on the work, I am unable now to send you them. I trust you will not consider it necessary to have them copied.

3. The work has been as already reported put in hand, but I regret to state that the progress has not been very satisfactory, as on two occasions, owing to deaths from cholera, coolies employed on the work have dispersed. The greatest loss was that of a large gang of wudders from North Arcot District. I trust however that we shall get a great portion of the work done by the end of the month.

4. Referring to paragraph 7 of my letter printed in the Government Order, I forward an estimate for employing the mile coolies I propose on the first four miles of channel and in Streemushnam cutting; as I suppose this should also be sanctioned by Government, I request permission to employ them in anticipation of sanction.

No. 148-W.

No. 584-A. *Note by the Chief Engineer for Irrigation.*

THE District Engineer, South Arcot, has, with reference to G.O., No. 1,879, of the 25th July last, forwarded for sanction the estimate of Rupees 16,600 for clearing the Pelandorai Anicut Main Channel, as also another estimate of Rupees 644 for petty repairs to the channel which he proposes to carry out by monthly labor.

2. The estimates are recommended for sanction, but the Revenue particulars which are required to accompany all estimates for repairs by whatever authority they may be sanctionable have not been given.

OOTACAMUND,
18th August 1876.

(Signed) J. MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.

To the Secretary to Government, Public Works Department.

No. 585.
