The Chief Engineer has the honour to submit for sanction an Estimate of £1,600 for widening cut no 1 Practicable Riding Road, & branch to the new Riding Road towards Kotagherra through Kodapunnund which was opened under sanction of G.O. No. 3544 of 16th Dec. 1874.

Both the Road that has been opened, & the branch which it is now proposed to open, were projected by the Chief En-

since to throw open
to the public use of
the finest valley
running down from
the Woodchester Ridge;
the old riding road
to Rodborough through
which had become
absolutely impassable
by reason of its being
traversed morning
and evening by all
the Buffaloes, & Cattle
of Rodshampanned Village.

The project was warmly
supported by Sir
Wm. Robinson; & leave

obtained upon from 5th 7th
the Inspiredom of three
bys through his ground
for a merely nominal
compensation. The
branch which it is now
desired to complete
also runs for some dis-
tance through the Jan: The
Spiredom Tenplanta-
tion; and it is only
right that it should
be opened at once to
save him from considerable damage
which will ensue to
his Tenplants if not be
not carried out till

1874,

Since writing his Memo of the 9th June, the Chief Engineer has been supplied with the Price for Reclamation for land taken up for the New Approach to the Metropolitan Road mentioned in G.O. No 3544 of 16th Dec. 1874, and its Branch to which his Memo. refers - Its amount is £499, and not £1,571 as mentioned in Newspaper Article

they are full enough - And the Branch required as a Public Side to complete the connection between the Side already opened and the Main Side up Waldo Hollow from the Cutting at the Common Road - £600 would be the required from the Municipal Revenue, should it be -

I strongly support the proposal – the money spent will be thrown away unless this is carried as proposed as the area becoming a literal – and the promoter is unable to work the land because it is not known where the culverts are
