man for Goomsoor where he has done more harm than good

2 I beg to request you will be so good as to approve of the arrangements proposed in my telegram dated to-day

3. A copy of letter referred to in the telegram is herewith sent with an application from the man whom I intend placing in charge of the Goomsoor Sub-division and some papers in connection with his services. He is at present a Supervisor on the Bengal Establishment, but there will be no difficulty about his transfer. I am sure Colonel Haig will comply with the request, and I know the man well, and, as he is here at present on leave, he may go to work at once, his services are urgently required

No 641. ORDER THEREON, 28th August 1876, No 2,284.

ESTABLISHMENT, No 38

THE District Engineer, Ganjam, recommends the transfer to some other district of N Veeraragava Iyer, Supervisor, Second Grade, as disabled by sickness for his present charge, the Goomsoor Sub-division of the Berhampore Range Mr Harris proposes to replace Veeraragava by the appointment of Vencatareddy Naidu, at present employed as a Supervisor on the Bengal Establishment. It does not seem fair to bring into the Department in the class of Supervisor a man from the Bengal Establishment, and seeing that Vencatareddy was offered the appointment of Overseer, First Grade, some years ago, but did not at the time avail himself of the opportunity of joining the Madras Public Works Department, the present proposal cannot be entertained The Chief Engineer will consider the practicability of sending to Ganjam one of the extra Assistant Engineers from Cooper's Hill, who may be qualified for a Telugu District, to take up the Range charge, Sub-Conductor Cormac being posted to the Sub-division.

2 Veeraragava Iyer will, on return from sick leave, join the South Arcot District in the place of Sergeant Stewart, meanwhile, Mr. Harris will obtain a Medical

Certificate, signed by the Zillah Surgeon, to support the application for leave on behalf of Veeraragava, which the District Engineer is himself competent to grant

Since the beginning of November he has sent W.D.  
and 8 Distributaries besides a quantity of  
other work amounting altogether to 127 miles  
he has in fact done upwards of three fourths  
of the work on this Survey. Khinisaan, not  
withstanding the fact that a Civil Engineer  
has been engaged on the works for some  
months drawing faint lines his labor

I can certify to Dr. Khinisaan, that his  
thorough knowledge of Surveying, Measuring, Drawing  
Superintending the detail of Constructions  
of Rocks & Bridges in fact every branch connected  
with Canal work. He is moreover very  
industrious & strictly trustworthy and I shall  
be very well pleased to hear of his being  
promoted to the Grade proposed.

The Superintending Engineer is  
personally acquainted with this man's quali-  
fications & considers him fit now for the  
Post of Assistant Engineer. He has great  
Energy is a very rapid and accurate  
Draftsman & Estimator. In Orissa he had  
Charge of 10 miles of Canal under the  
immediate supervision of the undersigned  
also many miles of Distributaries; he  
carried out all this work rapidly & well, he  
has a thorough practical knowledge of work  
and can collect large number of workmen  
& keep them together. In situating a  
line of Canals for irrigation distributaries  
he is unsurpassed. He should certainly  
for his qualifications be in a higher  
position than he is now.

K. K. Lal Kaidu has had 10 years  
service in irrigation works of which time  
he served in the irrigation Campaign. He was  
drawing more pay in 1868 7 years ago than he is  
now drawing owing to his length of service.  
He has had charge for the last season  
of all the work included in the former Eastern  
Suez Survey Division viz. the Survey, Plans, &  
alignments, designs & Estimates for the distri-  
-bution of water from the Palla Canal. He has carried  
out his work so satisfactorily that he has been fre-  
quently commended by the Superintending Engineer.  
I strongly recommend him for promotion. He has  
all the qualifications of a good Assistant Engineer.

Sir,

I have the honor to recommend

that the two 1<sup>st</sup> Class Surveyors

Mr. Subharagudu Naidu

Mr. Venkatarreddy Naidu

Employed on the Pookkolia project.

Now may be appointed to D. P. W. as

Superior 2<sup>nd</sup> Class or at least as 1<sup>st</sup> Class

Because all these men working for  
 promotion, there men have worked as  
 Surveyors in the hope and expectation of  
 being appointed to the Department; if  
 the Pookkolia Project is carried out they  
 would be extremely useful in fact in any  
 case as they know Oriya and are

Accustomed to the public. I have  
before stated the circumstances and  
forwarded testimonials relating to  
Mr Subbarayudu Raisu.

I enclose the testimonials belonging  
to Mr Subbarayudu Raisu they are  
favorable and I believe decided, as  
he is hard working and intelligent  
and with an a large work to perform an  
exceptionally useful man. When the  
Prissa work was stopped he took the  
Bamms offered and set up as a merchant  
and Canal Bank proprietor with  
the approval of Canal officers but  
the speculation failed and belonging  
to Rajahmundry he would prefer  
being employed in the Madras Presidency.

I remain, Sir, very  
Respectfully,

Major T. Buckley R.E. forwards to Mr.  
K. K. R. R. R. an Extract of Madras  
Government Order No 2686 dated 15th November 1872  
showing that had he not obtained employment  
in Durgal he would have been appointed  
an Officer in the Madras Establishment  
no doubt however an excellent one who  
as are sanctioned from the Durgal Service.  
Mr K. K. R. R. will have better opportunity  
of distinguishing himself and obtaining an  
advancement than he would have had in  
Madras.

\* Extract of P. O. No 2686 dated 15th November 1872

10 The sum of Rs 6292 required to  
provide for Major Buckley and his Establishment  
up to the 30th November is sanctioned. From  
that date his two Surveyors will be taken  
on the Permanent Quarter Establishment, &  
retained in Gajipur or Nagapatnam by  
such transfer of other Officers as the  
Superintending Engineer can arrange. He

will also endeavor to provide for the  
two draftsmen in organizing the office  
required under the re-organization.

It does not seem fair to bring  
into the Department in the  
class of Supervisor or a man  
from the Bengal Establishment,  
and seeing that Tenebala-
